Erector Set

Graduates of Iowa State University Department of Civil, Construction and Environmental Engineering's construction engineering program wanted to stay connected to Iowa State after graduation. This led to the Erector Set, first published in the summer of 1969. The name Erector Set? Tom Jellinger, the first professor-in-charge of construction engineering at ISU’s CCEE Department, was talking to his wife, Ro. He told Ro he was thinking of calling the new publication The ConE Newsletter. She replied, “That sounds boring! Why don’t you call it something fun, like the Erector Set?”

Front Cover Photo (By Kate Tindall)

ISU Department of Civil, Construction and Environmental Engineering’s Communications Specialist Kate Tindall took time out to explore the Biosciences Facilities Advanced Teaching & Research Building (ATRB) Project currently taking place on the corner of Stange and Pammel near Iowa State University’s campus. She snapped the front-cover shot of a worker preparing formwork for a cement pour. The photo was taken early on the morning of July 13, 2016. ISU CCEE ConE alumni Dean McCormick (BSConE’81) and ConE Senior Lecturer Larry Cormicle (BSConE’78 and MSConE2010) were instrumental in helping organize the photo opportunity, as was Russ Dodson (BSConE2002) of ISU Facilities Planning and Management.

Dear Erector Set readers:

Greetings from Ames, Iowa, where the construction economy is booming! With enrollment increasing at Iowa State University and research-related industry building in town, there will be plenty of active construction sites for our students to observe for class projects! Construction engineering enrollment remains relatively high at 301, students and our graduating classes have increased in size. In May, 32 students graduated, with three more expected this summer. Stronger placement trends from four years ago attracted more freshmen, and they are now coming out of the pipeline, replacing the smaller classes of students who entered our program during the Great Recession. In addition, our graduate program remains at about twice its traditional enrollment (47 students at one point during this academic year), due to the considerable funding that faculty members provide with research, effective recruiting and the synergy of our online program.

You will find in our news articles that our students, staff and faculty members have continued to distinguish themselves by winning awards and competitions. Our student organizations have been engaged with guest speakers, social functions and service projects as well as some field trips. In addition, we have had some great alumni gatherings in Des Moines, Minneapolis, and Kansas City, as well as several football games. It has been great to see our former students in their lives since graduating!

We have made some great hires and will have one faculty member moving on to another school. In January, Kristen Cetin joined the construction engineering faculty with interest in building energy. This is a position that we have been hoping to recruit for several years, because of the growing importance of mechanical and electrical construction, and the desire to develop a research and graduate program in this area to complement our excellent undergraduate activities in the same area. We are also welcoming her husband, Dr. Bora Cetin (geotechnical engineering faculty member) and newborn daughter Anka to the ISU family. Meanwhile, Yelda Turkan, who was our BIM specialist and ConE 222: Introduction to Construction Engineering teacher, has taken a faculty position at Oregon State University. We will miss her but move forward to hire a replacement as soon as possible.

We are also excited to have new faces amongst our staff members. Jean Dubberke is our new outreach manager who comes to us with considerable professional experience in the College of Engineering. Kate Tindall is our new communications specialist who has had professional experience in broadcast journalism. Together with our Erector Set Editor Denise Wood, these people will be coordinating alumni activities and communications. They are excited in their new roles, and I’m sure you will enjoy the fruits of their efforts!

Personally, I have some excitement coming up in my academic life. I have a faculty professional development assignment (new terminology for sabbatical) in New Zealand to teach a couple classes for fall semester (read “winter” at my destination at the bottom of the world!). University of Canterbury in Christchurch is placing a greater emphasis on construction aspects of civil engineering and I am going to be experimenting on how to export our online content to a new location with the hope that we can develop a strong and synergetic partnership in the future. In addition, I will be making other trips to international locations to exchange ideas on innovative teaching methods.

I will close by extending best wishes for a productive and fulfilling year for our alumni and friends. As always, we are looking forward to reading your greetings in the Erector Set!

Go Cyclones!!!

### Alumni Central

ISU CCEE is on LinkedIn. Are YOU?

Search **ISUConE** and **Iowa State University Civil, Construction and Environmental Engineering** to join.
## Construction Engineering Faculty and Staff

### Jenny Baker, Senior Lecturer

455 Town Engineering  
515-294-6781  
jzbaker@iastate.edu  

**Courses Instructed**  
*ConE 353. Electrical Systems in Buildings*  
Comprehensive coverage of building electrical systems including power, lighting, fire alarm, and communications. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.  
*CE 594A. Special Topics Construction Engineering and Management: Planning and Scheduling (Taught by Tuyen Le – Ph.D. Graduate Student)*  
Construction scheduling and estimating for graduate students who do not have a construction engineering bachelor’s degree.  
**In addition:**  
- Faculty co-adviser for National Electrical Contractors Association (NECA)  
- Technical Advisor for Capstone (ConE 487)

### Kristen Cetin, Asst. Professor

405 Town Engineering  
Asst. Professor  
515-294-8180  
kcetin@iastate.edu  

**Courses Instructed**  
*CE 594P. Special Topics Construction Engineering and Management: Advanced Technologies*  
Some topics have a set number of credits and some topics the number of credits vary. Emphasis for a particular offering will be selected from the following topics.

### Larry Cormicle, Senior Lecturer

454 Town Engineering  
515-294-8299  
cormicle@iastate.edu  

**Courses Instructed**  
*ConE 441. Construction Planning, Scheduling, and Control*  
Integration of previous construction coursework into the planning, scheduling, and management of time, costs, and other resources. Emphasis on preparation and analysis of network schedules. Comprehensive planning and scheduling project. Computer project management applications.  
*ConE 488. Construction Engineering Design II*  
Application of team design concepts to a construction engineering project. Project planning. Advanced construction and project management.  
**In addition:**  
- Director of Undergraduate Program Operations  
- Coop/Intern Adviser
Construction Engineering Faculty and Staff

(Cont.)

- Adviser for Associated General Contractors Student Chapter
- Coach for Associated Schools of Construction Student Competition Teams
- Chair of the ConE Curriculum Committee
- Department Representative, Scholarships Committee
- Adviser for the National Association of Home Builders Student Chapter

Doug Gransberg, Professor
Institute for Transportation
515-294-4148
dgran@iastate.edu

Courses Instructed

CE 502. Construction Project Engineering and Management (Taught by Jorge Rueda – Ph.D. Graduate Student)
Application of engineering and management control techniques to complex construction projects. Construction project control techniques, stochastic estimating and scheduling, equipment selection and utilization, project administration, construction process simulation, quality management, and productivity improvement programs.

CE 594O. Heavy Civil Construction Management

In addition:
- Chair of Graduate Student Program

Beth Hartmann, Senior Lecturer
450 Town Engineering
515-294-8190
bethlin@iastate.edu

Courses Instructed

ConE 121. Cornerstone Learning Community: Orientation to Academic Life
Integration of first-year and transfer students into the engineering profession and the construction engineering program. Assignments and activities completed both individually and in learning teams involving teamwork, academic preparation, and study skills. Introduction to construction industry professionals. Teamwork topics include interdisciplinary teamwork, skills for academic success, diversity issues and leadership. Introduction to organization of program, department, college, and university. Overview of faculty, staff, policies, procedures and resources. (Fall 2015)

ConE 122. Cornerstone Learning Community: Orientation to Professional Life
Continuation of ConE 121. Integration of first-year and transfer students into the engineering profession. Career preparation, professional ethics, construction research, leadership. Introduction to construction industry professionals including how they interact with engineers in other disciplines. Continued introduction to program, department, college, and university organization. Overview of faculty, staff, policies, procedures and resources. (Spring 2016)

CE 485. Civil Engineering Design I
The civil engineering design process, interacting with the client, identification of engineering problems, development of a technical proposal, identification of design criteria, cost estimating, planning and scheduling, codes and standards, development of feasible alternatives, selection of best alternative, and oral presentation.
ConE 487. Construction Engineering Design I
The integrated delivery of project services as a team, including preliminary engineering design process, constructability review, interaction with the client, identification of engineering problems, development of a proposal, identification of design criteria, cost estimating, planning and scheduling, application of codes and standards, development of feasible alternatives, selection of best alternative, and oral presentation.

CE 490/ConE 490. Green Energy Challenge
The integrated delivery of project services as a team, including project selection, site visit and assessment, technical analysis (lighting, energy usage, photovoltaic and wind energy, and electric vehicle charging stations), project management (schematic estimate and schedule, financing plan), and proposal writing.

In addition:
• Faculty Co-Adviser, National Electrical Contractors Association Student Chapter
• Coach, ELECTRI International Foundation Green Energy Challenge 2015 Team
• Faculty Leader, Leadership Pillar, E2020 Scholars Program
• Member, College of Engineering Academic Standards Committee
• Assistant Mentor, ASCE Excellence in Civil Engineering Education (ExCEEd) Teaching Workshop

Mark Hunacek, Senior Lecturer
486 Carver
515-294-8167
mhunacek@iastate.edu

Courses Instructed
ConE 380. Engineering Law
Introduction to law and judicial procedure as they relate to the practicing engineer. Contracts, professional liability, professional ethics, licensing, bidding procedures, intellectual property, products liability, risk analysis. Emphasis on development of critical thinking process, abstract problem analysis and evaluation.

Chuck Jahren, Professor-in-Charge
458 Town Engineering
515-294-3829
cjahren@iastate.edu

Courses Instructed
ConE 322. Construction Equipment and Heavy Construction Methods (Jorge Rueda taught F’15 and Joseph Shrestha taught S’16 – both are Ph.D. graduate students)
Selection and acquisition of construction equipment. Application of engineering fundamentals and economics to performance characteristics and production of equipment. Heavy construction methods and economic applications.

ConE 381A. Bidding Construction Projects I: Heavy and Highway (Joseph Shrestha taught F’15 and Denise Guo taught S’16 – both are Ph.D. graduate students)
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

ConE 481A. Bidding Construction Projects II: Heavy and Highway (Joseph Shrestha taught F’15 and Fathy-Abdelat Ahmed taught S’16 – both are Ph.D. graduate students)
Similar to ConE 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

**CE 505. Design of Construction Systems**
Advanced design of concrete formwork and falsework systems. Design for excavation and marine construction including temporary retaining structures and cofferdams. Aggregate production operations, including blasting, crushing, and conveying systems. Rigging system design.

**In addition:**
- CCEE Administrative Council

---

**David Jeong, Associate Professor**
326 Town Engineering  
515-294-7271  
djeong@iastate.edu

**Courses Instructed**

**ConE 422. Construction Cost Estimating and Cost Engineering**

**CE 503. Construction Finance and Business Management**

**CE594N. Special Topics: Industrial Construction**

**In addition:**
- ConE Curriculum Committee

---

**Brad Perkins, Senior Lecturer**
452 Town Engineering  
515-210-9099  
bperkins@iastate.edu

**Courses Instructed**

**ConE 241. Construction Materials and Methods**
Introduction to materials and methods of building construction and construction drawings. Foundation, structural framing, floor, roof, and wall systems. Blueprint reading and quantity takeoff techniques.

**ConE 251. Mechanical/Electrical Materials and Methods**
Introduction to the materials and methods for mechanical and electrical construction systems and drawings. HVAC, water and waste water, power distribution, lighting, and fire protection. Blueprint reading and quantity takeoff.

**ConE 352. Mechanical Systems in Buildings**
Comprehensive coverage of mechanical systems, plumbing, fire protection. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.

**In addition:**
- ConE Curriculum Committee
Cliff Plymesser, Senior Lecturer
451 Town Engineering
515-450-2357
cplymess@iastate.edu
Courses Instructed
ConE 340. Concrete and Steel Construction

Jennifer Shane, Associate Professor
498 Town Engineering
515-294-1703
jsshane@iastate.edu
Courses Instructed
CE 306. Project Management for Civil Engineers
Project management, including work breakdown structures, cost estimating, scheduling, and project control. Civil engineering project life cycle, including planning, design, construction, and maintenance processes. Techniques in interpretation of contract documents, plan reading, and in estimating quantities.
CE 501. Preconstruction Project Engineering and Management
Application of engineering and management control techniques to construction project development from conceptualization to notice to proceed. Emphasis is on managing complex projects using 5-dimensional project management theory.

In addition:
• Sigma Lambda Chi faculty adviser (construction honor group)
• Faculty Adviser of Design-Build Institute of America Student Chapter
• Member of ConE Curriculum Committee

Sebastian Speer, ConE Academic Advisor
382B Town Engineering
515-294-5850
sspeer@iastate.edu
Courses Instructed
ConE 121. Cornerstone Learning Community: Orientation to Academic Life, ENGR101. Engineering Orientation
Integration of first-year and transfer students into the engineering profession and the Construction Engineering program. Assignments and activities completed both individually and in learning teams involving teamwork, academic preparation, and study skills. Introduction to construction industry professionals. Teamwork topics include interdisciplinary teamwork, skills for academic success, diversity issues and leadership. Introduction to organization of program, department, college, and university. Overview of faculty, staff, policies, procedures and resources. (Fall 2015)
ConE 122. Cornerstone Learning Community: Orientation to Professional Life
Continuation of ConE 121. Integration of first-year and transfer students into the engineering profession.
Career preparation, professional ethics, construction research, leadership. Introduction to construction industry professionals including how they interact with engineers in other disciplines. Continued introduction to program, department, college, and university organization. Overview of faculty, staff, policies, procedures and resources. (Spring 2016)

Yelda Turkan, Assistant Professor
428 Town Engineering
515-294-7539
yturkan@iastate.edu

Courses Instructed
ConE 222. Contractor Organization and Management of Construction
Entry level course for construction engineering: integration of significant engineering and management issues related to construction company operations. Company organization and operations, construction and project administration, construction contracts, delivery systems, insurance and bonding, construction safety, construction labor relations, contract documents.
CE 594A, B and C. Research Methods Seminar in Construction Engineering and Management; Quantitative Methods
Assigned readings and reports on research methods to assess and solve qualitative construction engineering and management problems.
CE 594S. Special Topics Construction Engineering and Mgt.: Building Information Modeling
Senior/graduate level course for construction and civil engineering: integration of previous construction/civil engineering coursework into Building Information Modeling (BIM), BIM Applications and Integrated Project Delivery (IPD). BIM process within and between various organizations; BIM applications in civil and construction engineering domain; emerging sensing and visualization technologies such as LIDAR and photogrammetry, and their integration into BIM; use of commercial software (Autodesk Revit; Navisworks; Tekla Structures; Tekla BIM.S.ight).
In addition:
• Member of ASCE Construction Institute Digital Project Delivery Committee
• Member of Construction Industry Institute (CII) Academic Committee
• Member of Transportation Research Board AFB80 – Geospatial Data Acquisition Technologies in Design and Construction Committee
• Co-Chair of FIATECH Element 6 – Project Management and Controls.
• Member of ASCE Construction Research Council
• Faculty Co-Adviser for the CCEE Department Software Exploration Club

Denise Wood, Secretary
456 Town Engineering
515-294-2045
dwood@iastate.edu
Supports ConE and CE faculty, staff, students, and student organizations. Processes travel reimbursements, purchasing card transactions, and purchases for CCEE Dept. Handles employment questions. Co-Editor of the Erector Set.
Construction Engineering

Faculty Awards and Promotions

JENNY BAKER received the Consulting-Specifying Engineer’s 2015 “Top 40 under 40” Award.

DOUG GRANSBERG received the ASCE Construction Management Award.

Research Publications:
by Doug Gransberg
NCHRP 24-44: Guidelines for Managing Geotechnical Risks in Design-Build Projects
by Doug Gransberg

BETH HARTMANN received the College of Engineering Superior Engineering Advisor Award.

She also was promoted to senior lecturer in August 2015.
Beth passed her PhD defense and graduated in May 2016.

LARRY CORMICLE was selected as Weitz Faculty Fellow in November 2015.

DAVID JEONG received the Construction Industry Institute Distinguished Professor in 2015.
Dr. Kristen Cetin

ASHRAE: 1710-TRP, Effects of Dynamic Shading Devices on Daylighting and Energy Performance of Perimeter Zones
(PI: Kristen S. Cetin, Co-PI: Ulrike Passe)
Contract: Sept 2016-Aug 2018
Project total: $158,000

Buildings in the United States consume approximately 40 percent energy and 72 percent of electricity use. Commercial buildings, primarily office buildings, are responsible for a large amount of this consumption, but, at the same time also have the responsibility of providing a comfortable and productive working environment. This includes fulfilling thermal comfort and lighting needs. As we spend nearly 90% of our time in buildings, a balance between comfort, daylight provision and energy conservation is needed. Currently many office buildings use some form of shading devices to aid in controlling the amount of natural daylight entering into the indoor space. Most of these shades are manually operated. All offices also have electrical lighting. With the development of improved sensors and device communication, there is an opportunity to automatically operate these shading and lighting devices to better optimize performance. These dynamic shading devices and lights operate automatically, based on feedback from sensors, to provide a comfortable work environment while reducing building energy use. The main objective of this research is to, through modeling and full-scale testing, evaluate the effectiveness and energy savings potential of dynamic shading devices coupled with electric lighting controls in perimeter office spaces. The results of this research will help to enable further reduction energy use in office buildings.

Federal Aviation Administration: Heated Airport Pavements: Full-Scale Demonstration of Heated Portland Cement Concrete Pavement System
Co-PI: Kristen S. Cetin, (PI: Halil Ceylan)
Contract: May 2016-May 2019
Project total: $1,496,002

Airport pavement snow removal and runway de-icing operations are expensive components of airport operational costs. Occasionally, these operations lead to flight delays impacting travel throughout the U.S. and worldwide. Chemical de-icing of pavements and/or the use of sand/chemicals can lead to groundwater contamination and the potential of creating foreign object damage to aircraft engines and corrosion to the overall airplane structure. An alternative means for removing ice and snow from the airport surfaces is the use of heated pavements. Heated pavements use electrically conductive concrete, hydronic heating, geothermal heating, or other means to heat the pavement surface and melt ice and snow accumulation. This phase of the project involves the full scale testing of heated pavement test sections. Dr Cetin’s contribution to this project is to conduct analytical studies to develop an energy- and heat-transfer-based model of the pavements using 3D finite element analysis. This will be calibrated using full-scale testing data. As a result of this research, the models developed can be used to predict the heated pavement performance under various climatic and boundary conditions. This effort works towards a more sustainable and environmentally-friendly solution to airport operations in cold climates during adverse conditions.
Dr. Douglas Gransberg

Understanding how to produce accurate preconstruction services (PCS) estimates requires a deep appreciation for the way a public engineering agency develops its construction projects from concept to bid day. While there are many outstanding academic studies on estimating construction costs, most are silent on how to estimate the cost to the agency to reach the point where the construction documents can be advertised for bids. This project will develop a stochastic parametric cost estimating model for use by public agencies to accurately estimate the cost to the taxpayer of developing a highway construction project to the point where a construction contract can be awarded. Dr. David Jeong is the Co-PI. Project completed in March 2016

The research seeks to quantify the costs and benefits of formal partnering on transportation projects and use that knowledge to update the AASHTO Partnering Handbook. The update will also include new chapters for partnering on CMGC, Design-Build and P3 projects.

**PI: NCHRP 19-10: “Guidelines for Managing Geotechnical Risks in Design-Build Projects,” $350,000.**

The research seeks to develop guidance regarding the development of geotechnical information and subsurface investigations before a public agency advertises a design-build project. It will draw from an extensive case study research effort on both successful and unsuccessful DB projects across the nation.

**PI: NCHRP Synthesis 47-02: “Alternate Design/Alternate Bid Process for Pavement Type Selection,” $45,000**

Alternate Design/Alternate Bid (ADAB) programs seek to increase the level of competition and reduce construction costs by allowing the contracting industry to determine which type of pavement is the most economical at the time of the letting. The research will benchmark the state-of-the-art-practice in ADAB in the US and Canada.

The Montana Department of Transportation (MDT) would like to increase the amount of construction it can let each year without increasing the state's budget. This project seeks to achieve that goal by reducing the amount of contingency that is carried forward through the project development process by exploiting a data-driven artificial neural network to produce project estimates at the point in time when a project identification number is assigned by the FHWA and before preliminary engineering begins. Early results have shown that the model can improve the accuracy of those early estimates by up to 50% on pavement projects. The MDT chief engineer believes that if that carries through the remainder of her program (bridges, etc.) that MDT will be able to let an additional 5 to 6 projects annually because of the reduced amount of contingencies permitted by reducing cost uncertainty via the top-down estimating model.
Faculty Research 2015-2016 (Cont.)

This project is small and essentially consists of an analysis of the practice in use by state DOTs to reduce cost and schedule uncertainty.

This project seeks to develop a decision tool for prioritizing network level bridge replacements using accelerated bridge construction techniques. Dr. Alice Alipour from structures is the PI.

Dr. Charles Jahren

Rapid Bridge Deck Joint Repair Investigation
Sponsor: Iowa DOT
PI: Chuck Jahren; Co-PIs An Chen and Jennifer Shane
Dates: January 1, 2013 thru Dec 31st 2017

The objective of this investigation is to develop a rapid, effective, and economical approach to repairing and replacing bridge deck joints. Consideration will be given to when in the life cycle the repair or replacement should be made. Alternatives for various levels of traffic maintenance will also be considered. That is, “When is it better to close an area entirely to traffic, so work can proceed more quickly and when should lane closures be used and some traffic be maintained in order to maintain mobility for road users?” This project is moving into a third phase where some of the previously developed innovative ideas will be pilot tested on actual construction projects.

Holding Strategies for Low Volume State Routes
Sponsor: Iowa DOT
PI: Chuck Jahren; Co-PI: Chris Williams
Dates: March 1, 2013 thru June 20th 2017

The objective of this research project is to assist Iowa DOT in developing strategies for maintaining lower volume highways that are near the end of their service life to a satisfactory level in order to delay the larger expense of rebuilding them. Under this investigation, research assistance will be provided for a pilot project to use holding strategies to extend the life of a relatively low volume state route (IA 93 between Sumner and Fayette IA) with the goal of providing a safe and adequate solution that will not divert investments to preservation projects. Assistance will be provided regarding materials selection, design guidance and comparison observations. Since similar projects may follow in other locations in the state using other methods, care will be taken to fully document the research methodology so it could be repeated in the future. Plans are being made to develop another set of pavement test sections in another part of the state that will focus on issues involving composite pavements: that is pavements that comprise a Portland cement concrete lower layer with an asphalt concrete overlay.
Optimal RAP Content for Minnesota

Sponsor: Minnesota Local Road Research Board
PI: Chuck Jahren; Co-PI: Bora Cetin
Dates: July 1st 2014 thru October 31st 2016

Unpaved roads in the state of Minnesota are a considerable percentage of the local road network. Unpaved roads initially designed for lower loads have now been exposed to increased loads of agricultural equipment and increased traffic. This affects the performance of unpaved roads and finally reduces the life of the road. Also, the problem of fugitive dust occurs as the characteristics of roads, such as gradation, change with time. Increased loads accelerate this process. With use, fine aggregates are drawn in the center and coarse aggregates are thrown to the edges. With increased speed of vehicles and lack of binding materials, washboarding is an additional challenge that unpaved roads face. As the gravel sources in Minnesota have been depleted and declined in quality the construction of unpaved roads faces performance and economic issues.

The objectives of this research will be to assess recycled asphalt pavement (RAP) as a material to reduce dust, wash boarding, and its effects on road performance. To conduct economic comparison between using RAP for unpaved roads and using RAP for hot mix asphalt plant. This comparison will answer the basic question whether it is economically feasible to use RAP for unpaved roads instead of using it in asphalt roads. Other objectives are to find a way to determine the optimal RAP content for unpaved roads and develop design guides for using RAP for aggregate roads. Several steps will be required to complete this investigation: literature review and interviews, a workshop to consider means and methods to assess optimal RAP content, a planning effort, a series of field trial observations, and effort to synthesize and document the results.

Field Investigation of Stabilized Full Depth Reclamation (SFDR)

Sponsor: Minnesota Local Road Research Board
PI: Chuck Jahren; Co-PI: Chris Williams
Dates: July 1st 2014 thru October 31st 2016

Full depth reclamation (FDR) is an asphalt pavement rehabilitation technology in which the existing hot mix asphalt (HMA), concrete layers and a portion of the underlying aggregate base is pulverized to produce an improved base layer. Bituminous materials, cement, or proprietary additives are often added to create a stabilized full depth reclamation (SFDR) layer. The technology is primarily used as a lower-cost alternative for road reconstruction or the use of an HMA overlay for low-volume road renewal projects. FDR has been used in various ways and places for decades. The interest of the state and local highway agencies (SHA) for this technology has grown due to the increasing gap between pavement maintenance needs and available financial resources. However, a nationwide accepted design method is still absent. Implementation of FDR technology relies on the experience of engineers and contractors; and this experience has not been well documented. The objective of the proposed research project is to document the local experience regarding FDR implementation in terms of design and performance which may be used to develop a SFDR design method that suits the materials, traffic, and climate in Minnesota and improve the current FDR construction specification.

Performance Based Evaluation of Cost Effective Aggregate Options for Granular Roadways

Sponsor: Iowa Highway Research Board
In this project, the research team proposes to conduct laboratory and field tests to examine the link between quality and performance of granular aggregate materials used in unpaved road designs, using materials collected from various quarries in Iowa. Based on the laboratory test results, field test sections will be constructed using materials with different quality and aggregate sources. The field performance (abrasion resistance, freeze/thaw resistance, density, material loss, modulus, gradation change) of sections built with different quality materials will be compared. Then, a comprehensive cost-performance analysis will be conducted to evaluate the cost effectiveness of the different materials to determine whether it is economically advantageous to transport good quality aggregate materials from quarries located in different counties.

Feasibility of Gravel Road and Shoulder Recycling
Sponsor: Iowa Highway Research Board
Co-PI: Chuck Jahren; PI: Jeramy Ashlock
Dates: January 1st 2015 thru December 31st 2016

Unpaved aggregate road surfaces and shoulders frequently experience extensive damage due to degradation of materials under heavy traffic loading and winter/spring freeze-thaw cycles. Additionally, substantial amounts of material are typically lost to whip-off and dusting. The damage results in several problems including surface deterioration, loss of crown, surface water erosion, rutting, and potholes. Unfortunately, the most unfavorable scenarios usually occur during spring thaws and rainy seasons, when aggregate roads are heavily used by planting and harvesting traffic.

Current maintenance practices typically involves covering the entire damaged road surface using virgin aggregate without compaction. However, due to the continually increasing price and scarcity of virgin aggregates, this is not the most sustainable and economical solution. More cost-effective solutions may be realized by focusing on recycling and processing the existing materials to return them to the optimum gradation, angularity, and plasticity index, while minimizing the amount of virgin aggregates required. Recycling of existing materials could also be used in conjunction with chemical and mechanical stabilizers for improved performance where necessary.

With this project, several series of laboratory tests will be conducted to determine the optimum target gradation and fines properties of the aggregate course that provide the best performance and durability. Field screening and recycling methods will be examined to restore existing aggregate materials contaminated by excessive fines to the optimum gradation to improve their performance and durability. Demonstration sections will be constructed using the most promising technologies to compare their relative performance, durability, and costs through at least one freeze-thaw cycle. Construction and maintenance of the demonstration sections will be documented, and the performance of the selected technologies will be assessed by in situ testing. Lifecycle costs will be analyzed to identify the most effective and economical solutions.

Evaluation of Otta Seal Surfacing for Low Volume Roads in Iowa
Sponsor: Iowa Highway Research Board
Co-PIs: Chuck Jahren, Doug Gransberg, Kasthurira Gopalakrishnan, and Sunghwan Kim; PI: Halil Ceylan
Dates: May 1st 2014 thru June 30th 2018
Iowa has approximately 72,800 miles of unpaved secondary roads with very low daily traffic volumes. Iowa’s county secondary road departments spent more than $72 million for aggregate replacement in 2008 alone. Otta seals may be able to provide an alternative to a traditional bituminous surface treatment as well as an alternative to maintaining granular roads with constant replenishment of granular materials. This project will: evaluate the feasibility of Otta seals as an alternative surface treatment on low-volume roads using local aggregate, including lower-quality aggregates; evaluate the cost-effectiveness and performance of Otta seals; develop a guide for road selection; identify local projects for field demonstrations; and, evaluate installed Otta seal performance through seasonal changes and laboratory testing.

Dr. David Jeong

PI: “Advanced Methodology to Determine Highway Construction Cost Index” Montana DOT, $152,463. Feb/2015-Feb/2017

The Highway Construction Cost Index (HCCI) is an indicator of current market conditions and hence the purchasing power of a highway agency. The trend of current market conditions can then be used to reasonably predict future market conditions. Thus, HCCI serves as an early warning system for possible cost fluctuations. The HCCI can be used to convert highway construction costs from current-dollar expenditure to constant-dollar expenditures. As a result, HCCI can be used by the agencies to make early project decisions based on changing financial resources and changing market conditions. This study will develop a noble and innovative method of calculating the HCCI that can meet MDT’s needs by reflecting regional and national trends. The new methodology developed in this study is expected to significantly improve the accuracy and reliability of HCCI for planning and budgeting future projects. Dr. Gransberg is the Co-PI for this project.

The Right-of-Way (ROW) acquisition process significantly affects the final cost and schedule of a transportation project and is a socially sensitive issue dealing with property owners’ rights. Many counties and cities in Minnesota are spending more than 30% of their transportation project budgets for ROW acquisition. The ROW acquisition process is a complex process made even more complicated by factors like alignment coordination issues, diverse state and local laws, conflicting public policies, environmental issues, public involvement, agency staffing, appraiser qualifications, mediation processes, condemnation processes, project characteristics, parcel types, location, etc. that can significantly affect ROW acquisition cost and duration. The proposed study will identify barriers and obstacles that occur during the ROW acquisition process that result in cost increases and delays. The team will benchmark effective practices, conduct structured interviews and a state-wide survey, and extensive case studies to meet this goal. The cause and effect analysis framework will be applied to the collected data to map causal relationships between identified barriers and negative consequences in the ROW acquisition process. A set of recommendations will be developed for each barrier identified in this study. Also, practical implementation strategies and methods will be developed and documented. Dr. Gransberg is the Co-PI for this project.
Faculty Research 2015-2016 (Cont.)

The estimation of design effort and cost plays a vital role in authorizing funds and controlling budget during the project development process. Typically, the design phase consists of various engineering activities or processes that require substantial efforts in delivering final construction documents for bid preparation. Estimating these efforts accurately and efficiently is critical for transportation agencies in properly allocating funds and assigning appropriate time and resources. The goal of this study is to design a practical approach that can systematically estimate, track, and negotiate bridge design efforts and costs in providing the best possible fund allocation, and control decisions. This study will achieve this goal by developing a parametric estimating tool to determine the bridge design and engineering efforts and costs using the historical design contract data. The tool will also have a stochastic function so that tool users can reasonably capture the uncertainties of the design services in engineering hours and/or dollars with a range estimate with the confidence level. Dr. Gransberg is the Co-PI for this project.

Pavement preservation has shown to improve pavement performance and the desire to maximize Iowa’s infrastructure investment has led Iowa to invest in collecting pavement performance information. This data, combined with construction and contract records can provide a better understanding of the effectiveness of pavement preservation techniques on Iowa roadways. Pavement preservation research requires immediately implementable results that can move activities like chip sealing or dowel bar retrofits from stop-gap categories and clearly demonstrate their effectiveness for enhancing a pavement’s ride quality, and delaying deterioration. Iowa has actively used pavement preservation methods as a way to extend pavement service life on both portland cement concrete (PCC) and hot mix asphalt (HMA) pavements. Improved understanding of pavement preservation techniques for both PCC and HMA is needed with a focus on pavement performance over time, the cost-effectiveness of preservation strategies and an effectiveness index that can be used to objectively evaluate preservation strategies. This research aims to improve the understanding of pavement preservation strategies in Iowa by focusing on three key areas: (1) documenting the effectiveness using both qualitative and quantitative metrics (2) understanding the important factors that influence the performance of pavement preservation strategies and (3) develop guidance for selecting pavement preservation techniques considering cost and roadway characteristics (such as traffic, pavement condition and construction history). Dr. Ashley Buss is the PI and Dr. Fatih Bektas is another Co-PI for this project.

Dr. Jennifer Shane

Minnesota Department of Transportation and the Minnesota Local Road Research Board, Modernizing Road Construction Plans and Documentation
Pl: Yelda Turkan, Co-PI: Jennifer S. Shane
Project total: $146,022

The purpose of this research project is to investigate what contractors are looking for in project bid
documents and to understand what information they actually need in them. Plans and specifications have a variety of information, and constructability is hard to understand because the current process is lagging behind available technology. Visualization in three dimensions (3D) can be difficult with the current two dimensional (2D) standard submittals. The 3D modeling is being implemented by leading contractor companies, as well as some departments of transportation (DOT), including the Minnesota DOT (MnDOT). However, these models are not provided in an electronic format as part of bid documents. Instead, hundreds of pages of plans, models, and other bid documents are provided in hard copy.

This project captures the best practices on producing and delivering road construction plans and documentation in several Minnesota cities and counties, in industry, as well as in several other DOTs in order to assist Minnesota city and county engineers in getting a better understanding of how and which types of plans, models, and other bid documents are used and delivered electronically in the construction industry, and how these practices can be employed in Minnesota cities and counties’ business practices. This is done through an extensive literature review, phone interviews with experts, and a brainstorming session with superusers, which allowed researchers to assess the recommendations reached through the study, and how electronic plans, models, and other bid documents are viewed by the implementers in Minnesota cities and counties. Based on the findings from these tasks, guidance was developed for the implementation of 3D modeling and electronic document management (EDM) systems for the Local Roads Research Board (LRRB).

Iowa Department of Transportation, Iowa DOT Project Management Peer Exchange
PI: Jennifer S. Shane
Contract: May 2016-July 2016
Project total: $19,908

This project supported the planning and conduct of a two-day Iowa Department of Transportation–hosted peer exchange for state agencies that have implemented some or all of the suggested strategies outlined in the Second Strategic Highway Research Program–sponsored project R10, Project Management Strategies for Complex Projects. Presentations were made by participating states, and several opportunities were provided for directed discussion. General themes emerging from the presentations and discussions were identified: (1) To implement improvements in project management processes, agency leadership needs to decide that a new approach to project management is worth pursuing and then dedicate resources to developing a project management plan. (2) The change to formalized project management and 5DPM requires a culture shift in agencies from segmented “silo” processes to collaborative, cooperative processes that prioritize good communication and collaboration. (3) Agencies need trained project managers who are empowered to execute the project management plan, as well as properly trained functional staff. (4) Project management can be centralized or decentralized with equal effect. (5) After an agency’s project management plan and structure are developed, software tools and other resources should be implemented to support the plan and structure. (6) All projects will benefit from enhanced project management, but the project management plan should specify appropriate approaches for several project levels as defined by factors in addition to dollar value. (7) Project management should be included in an agency’s project development manual.

Iowa Department of Transportation, Project Management Update to the Iowa DOT Project Development Manual, PI: Jennifer S. Shane
The Iowa Department of Transportation (DOT) was selected to receive User Incentive funding from the Federal Highway Administration (FHWA) for the second Strategic Highway Research Program (SHRP 2) Implementation Assistance Program. Through the program the Iowa DOT utilized the results from the SHRP 2 project R10, Project Management Strategies for Complex Projects on the Council Bluffs Interstate System (CBIS). In May 2016 the Iowa DOT hosted a peer exchange with agencies that have implemented or actively working with R10 and other agencies that have project management policies. Additionally, as part of the funding for the User Incentive funding, the Iowa DOT is interested in developing a statewide policy for managing projects based on the outline of R10 as well as the lessons learned from implementing R10. The objective of this project is to work with the Iowa DOT to develop a draft project management update for the Iowa DOT Project Development Manual.

Center for Industrial Research and Service, Investigation of Project Delivery Methods: Iowa State University
Experiences, PI: Jennifer S. Shane
Contract: June 2016

A project’s delivery method is a complex process of planning, designing, scheduling and construction of a building or a project. For an owner choosing the right project delivery method, it is very important because every project delivery method comes with its own advantages and disadvantages. Like owners, contractors and sub-contractors should also choose and bid wisely on what delivery method they are going to work. To gain insight into both the owner and contractor’s perspective, the researchers interviewed project managers and contractors working on Iowa State University projects, each using different delivery methods. Information about experiences, challenges faced, lessons learned and a few important points that they can share with the industry were gathered.

Dr. Yelda Turkan

Minnesota Department of Transportation, Modernizing Road Construction Plans and Documentation
PI: Yelda Turkan, Co-PI: Jennifer S. Shane
Contract: 07/01/2014 – 10/31/2016
Project Total: $146,022

Plans and specifications have a variety of information. Current construction documents reflect the needs of close to 20 years ago and it can be hard to visualize plans in 3D with current standard.

Did you know that …

Faculty Research 2015-2016 (Cont.)

submittals. Constructability is hard to understand because the current process is lagging behind available technology. This research will investigate what is really needed on construction plans, what the contractor really needs to build, and what is proposed. It will also identify the necessary requirements to provide for construction plans. The requirements need to change and may be a sliding scale based on the project being constructed. What goes in a plan set for a total reconstruction might look different than what goes in the set or what is required for a total reconstruction. This research will assist the Minnesota Department of Transportation (MnDOT) engineers in getting a better understanding of how and which types of plans, models, and other bid documents are used and delivered electronically in the construction industry, and how these practices can be employed in MnDOT business practices.

Midwest Transportation Center, Terrestrial Laser Scanning-Based Bridge Structural Condition Assessment
PI: Yelda Turkan, Co-PI: Simon Laflamme (Structures Division)
Contract: 07/01/2014 – 12/31/2015
Project Total: $64,115

Objective, accurate, and fast assessment of bridge structural condition is critical to timely assess safety risks. Current practices for bridge condition assessment rely on visual observations and manual interpretation of reports and sketches prepared by inspectors in the field. Visual observation, manual reporting and interpretation has several drawbacks, such as being labor intensive, subject to personal judgment and experience, and prone to error. Terrestrial laser scanners (TLS) are promising sensors to automatically identify structural condition indicators, such as cracks, displacements and deflected shapes, as they are able to provide high coverage and accuracy at long ranges. However, there is limited research conducted on employing TLS to detect cracks for bridge condition assessment, which mainly focused on manual detection and measurements of cracks, displacements or shape deflections from the laser scan point clouds. TLS is an advance 3D imaging technology that is used to rapidly measure the 3D coordinates of densely scanned points within a scene. The data gathered by a TLS is provided in the form of 3D point clouds with color and intensity data often associated with each point within the cloud. In this project, a novel adaptive Wavelet Neural Network (WNN) based approach to automatically detect concrete cracks from TLS point clouds for bridge structural condition assessment has been developed. The adaptive WNN is designed to self-organize, self-adapt, and sequentially learn a compact reconstruction of the 3D point cloud. The architecture of the network is based on a single-layer neural network consisting of Mexican hat wavelet functions. The approach was tested on a cracked concrete specimen. The preliminary experimental results show that the proposed approach is promising as it enables detecting concrete cracks accurately from TLS point clouds. Using the proposed method for crack detection would enable automatic and remote assessment of bridge condition. This would, in turn, result in reducing costs associated with infrastructure management and improve the overall quality of our infrastructure by enhancing maintenance operations.

National Cooperative Highway Research Program (NCHRP), Standard Definitions for Comparable Pavement Cracking Data
PI: Omar Smadi (Transportation Division), Co-PIs: Halil Ceylan (Geotech Division), Yelda Turkan
Contract: 04/01/2015 – 12/01/2016
Project Total: $300,000

The objective of this research is to develop standard, discrete definitions for common cracking types in
flexible, rigid, and composite pavements. The definitions shall classify cracking type, extent, and severity based on information from images collected by highway-speed data collection vehicles, including orientation, length, density, displacement, location, and other relevant factors. The standard definitions shall be used to facilitate comparable measurement and interpretation of pavement cracking in the highway community. The definitions shall be of sufficient detail to serve as the basis for user and system requirements for cracking evaluation software for automated data collection. Application to both existing and emerging image-based data collection technologies shall be considered.

**IFC-BIM Based Facility Management Approach to Optimize Data Collection for Corrective Maintenance**  
(Unfunded research project-Accepted for publication in ASCE Journal of Performance of Constructed Facilities)

Facility managers are required to collect high quality data to achieve corrective maintenance actions. Current Facility Management (FM) information systems are complex and provide high quality data. However, they lack interoperability and visualization capabilities. The goal of this study is to improve the quality of data collected that is required for corrective maintenance by utilizing visualization and interoperability capabilities of Building Information Modeling (BIM). To achieve that, an approach that implements Industry Foundation Classes (IFC) BIM to link and present alarms reported by FM systems such as Building Energy Management Systems (BEMS) and Building Automation Systems (BAS) with related data from Computerized Maintenance Management Systems (CMMS) was developed and validated on a typical university building. The results showed efficiency increases in high-quality maintenance data collection. The proposed approach supplements the existing body of knowledge in FM domain by providing a schema that integrates corrective maintenance data in a 3D IFC-BIM environment. Moreover, it provides a process to minimize the corrective maintenance lead-time and link equipment failures to the related maintenance information. FM practitioners can use this approach to decrease the lead-time needed for corrective maintenance responses, and focus their resources on productive maintenance tasks.

Catch up on ISU CCEE research online at ccee.iastate.edu
Sally and I continue to enjoy our life here in Ames. I have enjoyed frequent contact with Con E grads. The annual get-together in Des Moines is always fun. I continue to attend the Graduating Senior Dinners, and as usual, the seniors have been very complimentary of the program, the faculty and staff, and each other. This September Sally and I are moving to the Northcrest Retirement Community, here in Ames. We will miss our brick ranch home on Northwestern, but the time has come for both of us. I will continue to maintain contact with the Con E program and plan to attend the Con E functions.

Regards to all. --Jerry Chase

Mark Federle
Associate Dean for Academic Affairs, College of Engineering and McShane Chair in Construction Engineering and Management
Marquette University
201 Olin Engineering Building
Milwaukee WI 53201-1881
(414) 288-4531
Cell (414) 292-7938
mark.federle@marquette.edu

I have now been at Marquette for 8 years, it seems impossible that within 18 months I will have been at MU longer than I was at Iowa State or Weitz. Being the full-time Associate Dean for Academic Affairs, OPUS College of Engineering, while not changing any of my other duties has proven to keep me busy. Additionally, I am the Engineers Without Borders mentor – we just finished another cable supported pedestrian bridge. I encourage you to find time for activities such as this. I’ve also had the opportunity to see a few alums as part of my consulting travels, it is always great to hear how well many of you are doing.

Sarah is an attorney in St. Cloud, while Jackson is managing the stadium operations at the York Pennsylvania Revolution baseball team—seemingly having a good time, but definitely busy. Braeden is double majoring in Chemical Engineering and Applied Mathematics and was the starting keeper for the Men’s Soccer team at South Dakota School of Mines and Technology.

Michele is busy teaching in the same high school. We did celebrate our 31 year anniversary in May, and did make it to Napa/Sonoma last summer—which while increasing our Wine Cellar to over 800 bottles has also dramatically reduced our net worth.

My best to everyone—if you are ever in the Milwaukee area, please give me a call. Finally, I am always looking for folks to come in and guest lecture!

My best! - Mark
Ed Jaselskis
E.I. Clancy Distinguished Professor of Civil, Construction, and Environmental Engineering
Department of Civil, Construction, and Environmental Engineering
224 Mann Hall
North Carolina State University
Raleigh, NC 27695
919-515-1158
Fax: 919-515-7908

I hope the ISU ConE family is doing well. This year has been good in many ways. I am finishing up a Construction Industry Institute research study on key project control metrics for progress and performance assessment. Our team is reporting out this summer at the annual conference. We are excited to demonstrate a new project control software that helps managers select the right metrics and reliability improvement factors. Last summer, I traveled to Taipei to be part of a bridge jury team that selected a design-build team for the new Danjiang Bridge in Taiwan. I am currently working with three Ph.D. students on their research projects related to project success on complex projects. I have also found that I enjoy teaching math to a small group of middle schoolers this past year on Saturday afternoons. Michelle continues to volunteer in the community. Sophie is graduating from 8th grade and is looking forward to high school.

jellinger8612@att.net

Greetings from Bella Vista. I am doing well, still living in Catered Living at Concordia in beautiful Bella Vista, Arkansas. I prefer not to repeat myself year after year in my letter to you all; but not a lot has changed for me since last year. I guess at almost 93 years, that is a good thing! I entertained the idea of having Rocky, the squirrel who performs outside of my windows and observes me closely, to write this year’s Erector Set letter and add some humor. He declined!

I continue to follow the happenings with the ConE program at Iowa State. It is hard to imagine we are approaching 3000 graduates with bachelor’s degrees, master’s degrees, and doctorates. It is a source of great pride and accomplishment for me as I reflect on the first years of this program. I enjoy reading about each grad in the Erector Set and in your notes sent in holiday greetings.

I am no longer swinging the clubs and I do miss playing golf. I still watch the occasional tournament on television, but it is not the same as holding the club in your hand. There are now so many new players; I can’t keep up with them. I played the game for well over fifty years. It brought Ro and I much pleasure as we played courses across the country. Stubbornly I hold on to a set of clubs with
the goal of visiting the driving range one of these days.

I continue to collect more great-grandkids through my eight grandchildren. The great grandchildren now number six and will grow to eight by the year's end. They are fantastic. I am delighted with their visits to Arkansas and with our Skype and FaceTime conversations. Each one brings a unique mark on the world. I am proud of them all!

Wishing you all great success and much joy in your lives.

Tom

2015-2016 Learning Community Awards Announced

By Caroline Arkesteyn

The recipients of the 2015-2016 Learning Community Exemplary Peer Mentor and Exemplary Peer Mentor Supervisor Awards were honored at the Learning Communities Peer Mentor Recognition Ceremony on Wednesday, March 30, 2016.

The purpose of the exemplary peer mentor award is to recognize and encourage outstanding achievement by peer mentors working with learning community students. The exemplary service award provides an opportunity for faculty, staff, and students to express appreciation for mentors who set positive examples for students and support the academic goals of Iowa State University.

2015-2016 Exemplary Peer Mentors

Sydney Butikofer – WiSE First-Year
Sheila Evans – Leadership through Engineering Academic Diversity (LEAD)
Raul Hernandez – Multicultural Transfer Students in STEM
Erin Kollar – WiSE First-Year
Erin Mitchell – WiSE First-Year
Lyndsie Perrenoud – Construction Engineering
Kendall Ryan – WiSE Transitions
Antoinette Serrato – WiSE First-Year
Construction Engineering
Cornerstone Learning Community
By Sebastian Speer

The Cornerstone Learning Community is a way to introduce students to the Iowa State campus, the construction industry, and construction engineering faculty and alumni from their first semester on campus. It is a two semester sequence that is required of all construction engineering students. The topics covered in the course include basic plan reading, how to be successful at the career fair, and academic advising. In addition to these skills the students were again able to receive copies of the Strengths Based Leadership books to help them begin to understand themselves and their leadership style, thanks to the gracious donation of Rich Greenlee (BSConE ’66) and his wife, Carm (BSFamConsSci ’65).

Donations of both time and money from the industry help to make our learning community successful year after year. Donations have helped to pay peer mentors salaries, as well as provide personal protective equipment including goggles, high-visibility vests, and hard hats to each learning community student. All donations are exceedingly appreciated by our students and coordinators.

Lyndsie Perrenoud was selected as Exemplary Peer Mentors for her work with the learning community and her students. She worked as a peer mentor for three semesters.

### 2015-2016 Peer Mentors

#### Fall 2015
- Pete Christiansen
- Robert Dusenberry
- Haylee Hansen
- Lucas Johnson
- Joe Kern
- Lyndsie Perrenoud
- Rick Smith
- Jack Viverito

#### Spring 2016
- Keaton Banwart
- Andy Brown
- Maggie Holt
- Lucas Johnson
- Dakota McClelland
- Lyndsie Perrenoud
- Kevin Ruth
- Kurtis Schreck
- Emily Wangen

---

Construction Engineering Internship Program
Larry W. Cormicle
Faculty Adviser for Intern/Co-op Program, Construction Engineering

The participation in the internship/co-op program by construction engineering students for the summer of 2016 is 145 students. This is a five percent increase from the record number for the summer of 2014 enrollment and an increase of over 240 percent since the low in 2006.

Many of you have been hiring our construction engineering students for years as summer interns, with great success in hiring new graduates a year or two later. My personal thanks to all alumni and your employers for your continued support of the intern/co-op program by recruiting and hiring our construction engineering students. For those of you that have yet to recruit our students for intern assignments, consider adding our program to your hiring goals and beginning recruitment this fall for next summer’s interns. With our undergrad enrollment at 300 students, you will find almost every student looking for that intern position.

The internship and co-op program for construction engineering students is a great way for employers to begin recruiting our future grads. Many of our recent graduates accepted their first job with an employer for which they had

“Internship Program” cont. on next pg.
interned for at least one term.

Many employers prefer to hire students as interns for either a summer or for an eight month period covering either the spring and summer semesters or the summer and fall semesters. Whether a three-month-summer-only or an eight-month-two-semester term, employers are increasingly finding this intern or co-op arrangement the best way to find future new graduates.

The intern/co-op program is administered by Engineering Career Services within the College of Engineering. Visit engineering.iastate.edu. Under the “Current Students” tab, select “Academic Resources” and then select “Career Services” from the top menu. You will find internship and career fair information on this page. In addition, check out the following web site for more information for employers: http://www.engineering.iastate.edu ecs/internships/

The intern/co-op program is provided at no cost to either the student or the employer. The reporting is simple and is paperless, using a web-based reporting system. Students and employers will find the reporting process quick and easy at the end of the student's intern/co-op work period.

We are asking all students that have a summer intern position to formally sign up for the internship program. Many students that work the three summer months as an intern have elected to not sign up for the formal program. With state appropriations and the budget situation at ISU under change, the more we can document the summer intern experience, the more successful we will be in obtaining the financial resources for our program. As employers, we ask that you strongly encourage your intern employees to participate in the formal intern/co-op program. Their involvement begins with a short meeting with me as the faculty adviser of the intern/co-op program. Your support would be greatly appreciated.

Just as a side note, for the entire College of Engineering there are 833 summer intern/co-op engineering students enrolled for the summer of 2016. The construction engineering total of 145 comprises over 17 percent of the entire College of Engineering summer intern students. Yet the ConE undergraduate enrollment of 316 last spring semester is only four percent of the total undergraduate enrollment in the College of Engineering.

---

**CCEE students substitute AGC service trip for spring break**

By Kate Tindall

Leaky roofs, chipping paint … Jack Viverito paints a vivid picture of houses devastated by storms in Oklahoma City.

“You could just see, some of the houses were a complete mess,” Viverito said. “You couldn’t believe [people] were still living in them, when you look next door and [the house] is perfectly fine.”

The construction engineering graduate says tornadoes from 2013 and floods from 2015 left homeowners without insurance to pay for damages. That’s where Associated General Contractors (AGC) comes in.

This past semester, members of the ISU chapter of AGC decided they would trade in their spring break for a service trip. Viverito recently served as vice president of the group. He helped organize his seventh and final AGC Spring Break Service Trip.

“We worked for four days, sun up to sun down,” Viverito said.

That work breaks down to a total of more than 1,200 hours of labor. Viverito added that 28 AGC members volunteered for the trip. The group built four houses: completing roofing projects, drywall projects and flooring projects between March 13-17.

Professor Larry Cormicle advises the group. He says it’s critical to give students responsibility on the trips.

“AGC service trip” cont. on next pg.
“The students find the area in need, and I let them organize it,” Cormicle said.

It’s just as important to have constant service opportunities.

“I think the opportunity for all our students is to learn how it feels to help another human being in a time of desperate need,” Cormicle said.

Whether it’s OKC, Eastern Tennessee or Central Illinois, Viverito says service trips are a staple of the AGC experience at ISU.

“We’re always going to find something to do,” Viverito said. “For every fall break and every spring break we can. We love it. We’re just not going to stop.”

Iowa State extends winning reign at Midwest construction management competition

By Chris Neary

Iowa State University construction engineering students won three divisions in the 23rd Annual Associated Schools of Construction (ASC) Region 4 Construction Management Student Competition. The event was held Oct. 21-24, 2015, at the Lied Lodge in Nebraska City, Neb.

Iowa State won the commercial, design-build, and heavy highway divisions, and placed second in this year’s specialty contracting division. They competed among 168 students from 28 university teams based in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota and South Dakota.

“This competition completely confirmed my choice to go into construction,” said Mackenzie Alberts, construction engineering senior and captain of Iowa State’s design-build team. “This is exactly what I want to do with my life.”

Each team was given 18 hours to schedule, estimate, run cost analyses and resolve several surprise management issues on given project scenarios. Each division was given a different mock request for proposal, or RFP, on a real project. Each team then gave a 20-minute presentation to a panel of industry judges, who rated mock proposals on process and planning, cash flow projections, schedule, budget, oral presentation and a written supplement.
Iowa State’s commercial team won the mock proposal for the renovation of two adjoined, 4-story residence halls at a private Midwestern college. Commercial team students included senior Rick Smith (captain), senior Ryan Emerson, junior Jacob Lane, senior Nick Mendez, junior Charles Sweeney, and senior Josh Tuggle. Iowa State has won the commercial division 13 times since 1994.

The winning Iowa State design-build team was Alberts (captain), junior Colby Baumhover, senior Carson Bruess, junior Ryan Craven, senior Haylee Hansen, and architecture senior Jeremy Zehr. ASC challenged them to produce a construction plan for the Colorado-based Front Range Outdoors program outreach education center and main office. Requirements included 8,500 square feet of multipurpose classrooms, administrative space, grand hall, restrooms, and a LEED Certified rating. Iowa State has won the design-build division 14 times in the last 16 years. Alberts recognized alumni support in preparing students for competition. “The network of alumni who were eager to help us prepare is unrivaled,” she said. “To see people who graduated 10-plus years ago still involved in the program is amazing and very inspiring.

Iowa State’s winning heavy highway team included junior Blake Gethmann (captain), freshman Ben Burds, junior Cameron Mehls, junior Kevin Ruth, senior Skyler Saemisch, and senior Richard Van. Heavy highway division teams were tasked to plan a federal-state highway bridge replacement, including mass excavation/embankment, drainage, rip-rap, subgrade, sub-base, mechanically stabilized earth wall, and asphalt paving. Iowa State has won the heavy highway division six times in the last 14 years.

This year the specialty contracting division replaced the competition’s residential division. The runner-up Iowa State team included senior Dylan Busby (captain), junior Lauren Bennett, senior Daniel Carson, sophomore Tristen Girolamo, junior Kyle Kilburg, senior Scott Miller, and senior Paul Sauter. Their challenge was to produce an electrical construction package for a fertilizer facility addition. Project components included distribution equipment procurement and installation, grounding system installation, power wiring, lighting procurement and installation, and equipment checkout and commissioning.

Iowa State builds on a legacy, as they’ve placed first 42 times in the ASC competition’s 21-year history (Iowa State did not compete in 1995 and 1996). “We have truly great students who accept the challenge and prepare to win every semester,” said Senior Lecturer and Weitz Faculty Fellow Larry Cormicle (BSConE’78, MSCE’10), who has coached Iowa State’s ASC teams since 2002. “This is a testament to the quality of our faculty and construction engineering curriculum.” Senior Lecturer Brad Perkins also coached student teams, and Assistant Professor Yelda Turkan accompanied students on the trip.

Van agreed with Cormicle. “Students in construction engineering are held to a high level of professionalism, as if they are already employed by a Fortune 100 Construction firm,” he said. “We are pushed to our limits to ensure that when we leave Iowa State we are more than prepared to begin our careers.”
The Design-Build Institute of America Student Chapter is an organization designed to expose students to the design-build project delivery method and to build collaboration between design and engineering students. Architecture, civil engineering, and construction engineering students learn together through job site tours on design-build projects, by attending DBIA – Iowa Chapter events, and from industry representatives that present their experiences with design-build at monthly meetings.

This fall, five members of our chapter competed as a design-build team in the DBIA National Student Competition. Each team of architects and engineers was tasked with submitting a request for qualifications package to Pomona College for a new science classroom that incorporated an old powerhouse that was previously purchased by the college. Our design-build team placed first in the Midwest Region for our RFQ and received the request for proposal. Our team then responded to the request for proposal and went on to place eighth nationally. This was a great learning experience for our members and we will be competing again next fall.

Through our success in the student competition, we were able to send two students to the DBIA National Conference and Expo in Denver, Colorado. At the convention, students were able to network with professionals from across the country and volunteer their time to help staff the event.

A special thank you to our faculty advisor, Dr. Jennifer Shane. In addition we would like to thank all the companies who sponsored our monthly meetings; Woodruff Construction, Wolin, BNIM Architects, The Opus Group, Graham Construction, and Neumann Brothers.

Mechanical Contractors Association (MCA) Student Chapter

The Iowa State University Mechanical Contractors Association Student Chapter’s (ISU MCA) mission is to stimulate student interest in mechanical contracting, unite fellowship between student members and professional societies, and expand knowledge of the mechanical industry. The student chapter continues to promote communication and networking between students and industry professionals. Iowa State MCA Student Chapter is continuously working to increase club membership with the goal of creating a positive community environment for fellow construction and
mechanical engineering students to be involved in.

Another one of the club’s core beliefs is to expand so that students can find employment opportunities, interact with industry professionals and students who are interested in the mechanical industry as well. Along with the MEP Career Fair which is held every semester, the student chapter holds monthly meetings and social events throughout the school year.

Since the chapter was established at Iowa State University in 1999 the group has grown to have approximately 36 student members. The chapter is composed of mainly Construction Engineering and Mechanical Engineering students with the interest or goal to find opportunities for internships or full-time employment in the specialty trades of mechanical construction.

Iowa State MCA earns second national Chapter of Excellence Grant

By Chris Neary

The Mechanical Contractors Association (MCA) Iowa State University Student Chapter recently received special national funding for student chapter scholarships and activities.

The Mechanical Contractors Association of America (MCAA) awarded Iowa State’s MCA Student Chapter the 2015 Chapter of Excellence Grant, which allocates $5,000 for student scholarships and $2,500 for chapter operations.

The grant rewards MCAA student chapters for their extraordinary performance and accomplishments, which chapters describe as a special project or program, achieving a goal, or overcoming a challenge. Iowa State’s accomplishments include a 100 percent job placement rate — all placed within the mechanical construction industry — for graduating MCA students, attracting 48 golfers to its fall golf outing, and strong networking with Mechanical Contractors Association of Iowa. “Continual education, sparking interest, and creating excitement toward our industry is one of the goals of our chapter,” said Joe Kern, construction engineering senior and vice president of the MCA Iowa State chapter.

Iowa State also received the national grant in 2012. Learn more about the Mechanical Contractors Association Iowa State chapter at https://stuorgs.engineering.iastate.edu/mca/. Brad Perkins, senior lecturer of civil, construction and environmental engineering, advises the MCA Iowa State chapter.

Published Oct. 2015
The National Electrical Contractors Association (NECA) Student Chapter is the electrical contracting- and design-focused student organization within the construction engineering (ConE) program. It draws from a small (but talented) pool of students. One of the benefits of being a smaller club is that creating a bond with your fellow student is very easy.

As with other ConE student organizations, NECA has monthly meetings, organizes jobsite tours, and hosts socials. The tours and presentations are often given by members of Iowa NECA. These industry professionals are very involved and highly invested in our students. Networking and job hunting is easy when you’re in NECA.

Each semester NECA teams up with MCA to host the MEP Career Fair. It is a mini fair for locally-based companies, who are often smaller and unable to attend the Engineering Career Fair. The MEP Career Fair gives those companies the opportunity to recruit talented students, and gives students the opportunity to network with industry professionals who might otherwise not be accessible to them.

One thing that makes NECA stand out is the annual Green Energy Challenge. Every year, student chapters of NECA across the nation are invited to respond to an RFP, which outlines requirements for renovating a building in the community. The RFP is practical, real-world experience in developing a proposal. It includes analysis of the existing building, proposed updates, cost estimating, scheduling, financing, and outreach.

The Iowa State team consistently performs very well in the competition, and has had the opportunity to travel to the national convention in the last four years. In 2014, the team won 1st place in Chicago, to follow up with a 2015 1st place win in San Francisco.

Iowa State’s chapter of NECA was also the recipient of the 2015 Student Chapter of the Year Award. It was announced at the Student Summit event at the national convention in San Francisco.

NECA is a fantastic student organization with exceptional students, faculty advisors, and industry mentors.
Iowa State NECA a 2-time Green Energy Challenge Champion, earns Chapter of the Year

By Chris Neary

The National Electrical Contractors Association (NECA) Iowa State University chapter recently won the 2015 ELECTRI International Green Energy Challenge – a repeat accolade as Iowa State defended its 2014 national title. They also won NECA Student Chapter of the Year. Both honors were recognized at the NECA Convention held Oct. 2-6 in San Francisco.

ELECTRI International and NECA challenged students to develop a back-up power system and resiliency plan for a facility with demonstrated critical power needs. Iowa State civil engineering and construction engineering students, who call themselves Team Cyclone Energy, chose the university’s Administrative Services Building, where they developed a 50-page proposal to improve the building's energy consumption, light levels, and energy costs. Students proposed a solar energy microgrid and lighting retrofit as well as offered three alternate scenarios: 1) improve indoor air quality, improve thermal comfort, and reduce light intensity for building occupants; 2) increase energy production capacity of solar array; or 3) a combination of increasing comfort for building occupants and increasing solar energy production capacity.

Iowa State’s winning report and oral presentation came with a $4,000 cash prize, $2,000 in travel support to the NECA Convention, and free NECA Convention registration.

This year ten exceptional students devoted hundreds of combined hours of practice and talent to excel in competition. Team members include spring 2015 construction engineering graduates Lucas Baxter, Joe Hahn and Bryan Marroquin; construction engineering seniors Caleb Bonderer, Dylan Busby, Maggie Holt, Joe Kern and Rick Smith; construction engineering junior Regan Smiley; and civil engineering senior Britta Sortland.

Iowa State NECA faculty advisers are Beth Hartmann and Jenny Baker, both senior lecturers in civil, construction and environmental engineering. “This competition exposes students to a real-life scenario,” Hartmann said. “They work through how to perform technical analyses, develop a conceptual estimate and schedule, identify an appropriate financing plan, and develop a clear and professional proposal.”
Preparation for the 2015 competition began in December 2014, when Team Cyclone Energy was assembled. ELECTRI International issued a Request for Proposal to student teams in January 2015. Roles were then assigned and work commenced. In addition to completing all the technical proposal work, Iowa State NECA students developed an outreach event March 9, 2015, with Ames’ Sawyer Elementary School. There they led a paper windmill activity and taught children about clean, sustainable energies. They also organized and sponsored an energy-saving competition at the Iowa State Legacy Tower.

The written proposal was submitted to NECA and ELECTRI International April 20, 2015. Three months later, Iowa State learned they achieved the top score for their written proposal, which placed them in contention for Green Energy Challenge overall winner. Iowa State was invited to compete in an oral presentation, to be held at the 2015 NECA Convention, with fellow finalists Illinois Institute of Technology and Pennsylvania State University.

Sortland talks about the kind of preparation she and team members did. “Each of us recited lines before bed, in the shower, between classes, and other free moments we could find during the day,” she said. “We also worked on facial expressions, voice inflection and delivery, because we wanted to tell a story.” The group also practiced countless times together. Sortland’s focused efforts culminated in earning the Green Energy Challenge Best Presenter Award, which came with a $500 cash prize.

Iowa State also received the NECA Student Chapter of the Year Award, which came with a $1000 cash prize. This honor recognizes and rewards those students, faculty and NECA staff working hard year-round to run successful student chapters. Thirty-three chapters from the U.S. and Canada were eligible for this award.

At the NECA Convention, Hartmann presented to the ELECTRI International Council about how the Green Energy Challenge impacts students. The national electrical contracting industry has taken notice, considering Iowa State has been a Green Energy Challenge top-3 finalist each year since 2012. “The guidance of faculty, staff and industry partners, mixed with the admirable dedication our students have to this project, is what continues to make this team successful,” Hartmann said. “They become part of something bigger than they could have imagined.”

To apply for the 2016 Iowa State Green Energy Challenge team, contact Hartmann at bethlin@iastate.edu.

Iowa State University National Association of Home Builders Student Chapter

By Dylan Busby

This year the goals for National Association of Home Builders (NAHB) were to increase membership and get more involved in local community service. Conducting monthly meetings, community service build days and social events have help NAHB succeed at both of those goals.

NAHB prides ourselves with being involved in local community service, where members get the opportunity to learn about the basics of hand
tools and residential construction. Last year NAHB partnered with the City of Ames on a couple projects, and this year the partnership fostered. NAHB was blessed with the opportunity to construct the roofs on three park shelters, which helped members towards a record total of 500 hours of community service this year. NAHB thanks the City of Ames for this opportunity and looks forward to any other opportunities the City of Ames may have.

NAHB and AGC teamed up on numerous socials and a community service build to help promote active membership in both clubs. The socials benefitted both clubs very well as a large majority of the attendees were either sophomores or freshmen. Besides community service, NAHB participated in a couple home tours in the surrounding areas. Drake Homes, of West Des Moines, provided NAHB members with the opportunity to tour some their residential developments as well as their new office. Home builders, like Drake Homes, were the main focus of the monthly meetings this year. We had large residential contractors, like Pulte Homes, and small contractors, like Helland Construction, come in to present about how their company growth, and the successes and failures of entrepreneurship.

All of the above events have contributed to one of the greatest/best years for NAHB. Our goal is to continue to grow the membership while helping as many locals as we can.

**Associated General Contractors (AGC) Student Chapter wins 2015 Outstanding Student Chapter of the Year Award**

The Iowa State AGC student chapter recently received its 10th first-place finish as Outstanding Student Chapter. The award recognizes work the group completed in the Ames community, Tennessee and Nevada. Iowa State AGC worked on a number of projects that included tasks such as roof repair; interior wall framing; insulation and drywall installation; painting; trim work; winter weatherization; handicap ramps; decks; and much more. With 67 students participating in these efforts, the student chapter was able to help more than 10 families in need.

AGC holds multiple field trips a year, usually during Thanksgiving break and spring break. Many of these field trip destinations are in the Midwest and reach as far out as Nevada. The student chapter or “AGCers” have helped hundreds of families over the years, many of whom were devastated by natural disasters such as tornadoes or floods.

While helping families in need, the student chapter also gains valuable experience in construction methods, leadership, project planning, and embodying the stewardship of the AGC tenets of skill: responsibility and integrity.
Salcedo, AGC student chapter president, says, “Each project is a lot of work, but working on a project from beginning to end gives an immense amount of satisfaction.”

Winning the 2015 Outstanding Student Chapter of the Year Award is a great honor for all the members and especially last year’s cabinet members. “Every member that has participated in community service has made a huge impact on people’s lives, and this is something we are all proud of,” Salcedo states. “Winning this award is a testament to the hard work and dedication of all our members and everything we accomplished last year.”

Statistics of projects performed by the student chapter in 2014/2015:

Total service hours last year: 3,350 hours for both local and service trip projects

2014 Thanksgiving trip:
- 4 handicap ramps
- Winter weatherization
- 2 roof repairs
- Several other home repair projects

Spring Break 2015:
- Re-roofed 1 house
- Installed new floor throughout 1 house
- Completely framed, sided and roofed two new construction homes

Joseph Kern, Construction Engineering, Outstanding Senior Award

By Keegan Kriwant

Construction engineer Joseph Kern has laid out the groundwork at Iowa State to build a successful career after graduation. Kern has been named to the dean’s list every semester and has won multiple scholarships, including the Iowa Home Builders Association Scholarship, the Steve Maloney Memorial Scholarship, the Mechanical Contractors Association Scholarship, the ASHRAE Scholarship and the Sheet Metal Contractors Association Scholarship. He served as a leader in many organizations and clubs, such as vice president of the Mechanical Contractors Association Student Chapter and treasurer of the National Electrical Contractors. In his final year at Iowa State, he was a part of the Green Energy Challenge team that secured its second straight 1st place championship in the national competition.

He travelled with Associated General Contractors to rebuild and repair homes damaged by storms in both 2014 and 2015. He translated his experience to the classroom in multiple internships, including as an assistant project manager for Russell Construction and as a project engineer for Northwest Mechanical. Kern is currently working with designing biodiesel operations for the Baker Group in Des Moines and aims to earn his professional engineering license within the next five years.
Dean Rajala receives national engineer of the year award

By Ann Wilson

Sarah Rajala, dean of the Iowa State University College of Engineering, has been named national engineer of the year by the American Association of Engineering Societies (AAES) – representing 17 multidisciplinary engineering societies from industry, government and academia. Rajala received the award on April 18 at a ceremony in Washington D.C.

The AAES national engineer of the year award recognizes Rajala’s outstanding service in three key areas: 1) inspirational leadership at the institutional, national and international levels; 2) innovations in engineering education and assessment; and 3) her tireless efforts to promote diversity in the engineering field.

“It is indeed appropriate that Sarah Rajala receive the AAES national engineering award,” said Joseph J. Rencis, president of the American Society for Engineering Education, one of the AAES member societies. “She is a trailblazer and embodies the criteria of inspirational leadership and devotion to engineering education, advancement of the engineering profession and promotion of public policies.” Rencis also praised Rajala’s diversity efforts, adding “Sarah has recognized the engineering profession cannot achieve full success without full participation of the rich diversity of talent in our global population.”

Rajala joined Iowa State on April 1, 2013 from Mississippi State University where she was dean of the Bagley College of Engineering. Prior to her dean positions, she had a distinguished career as a professor, center director and served in various academic leadership positions. Rajala earned her bachelor’s degree from Michigan Technological University and master’s and Ph.D. degrees from Rice University.

Another AAES award went to ISU College of Engineering alumnus Raymond Paul Giroux (BScEng’79), senior engineer with Kiewit Infrastructure West Co. He received the Norm Augustine Award for outstanding achievement in engineering communication for his ability to effectively capture the public’s attention and to engage the engineering profession in understanding how mega engineering projects such as the Brooklyn Bridge, Hoover Dam, Golden Gate Bridge and Panama Canal are truly engineering miracles.

The Iowa State College of Engineering is one the largest engineering programs in the country offering 12 majors and five minors to more than 9,300 students. The college is consistently ranked a top 25 engineering program at public universities.

CCEE professor earns grant for developing energy-efficient, comfortable buildings

By Kate Tindall

When it comes to energy-efficient buildings, Kristen Cetin looks for a balance between comfort and cost.

“The controls that you can propose might save energy but might not make the occupants feel too comfortable,” Cetin said. “If you just turn off the A.C. (air conditioning), yes, you save a lot of energy. But nobody's going to like that.”

Now, Cetin has earned a grant for developing means of making buildings more comfortable, energy-efficient and cost-effective. This month, the Iowa State University Department of Civil, Construction and Environmental Engineering (CCEE) assistant professor learned the American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) has awarded her a grant for her research. Cetin will serve as principal investigator of the project “Effect of Dynamic Shading Devices on Daylighting and Energy Performance of Perimeter Zones.”

Cetin will work to develop systems that adapt to glare, heat and lighting levels in office settings. She will also explore how those systems could be controlled automatically. Cetin says researchers will use different types of windows and shades to control lighting and heat transfer during the project.

“The purpose of this is to try to use shading devices and lighting controls to somewhat reduce energy use but not negatively affect the occupants,” Cetin said. The total cost of the project will be approximately $160,000, with ASHRAE contributing slightly more than $112,000. The Iowa Energy Center will also share costs of the project, and two months of experimentation will take place at the center's Energy Resource Station (ERS).

The project starts in September of this year and is slated to last two years. Cetin will work with Ulrike Passe, an associate professor in ISU’s College of Design and the director of the Center for Building Energy Research (CBER) at ISU.

Iowa State professor wins ASCE (American Society of Civil Engineers) Construction Management Award

By Keegan Kriwant

Douglas Gransberg, a professor of Iowa State’s Department of Civil, Construction and Environmental Engineering, recently accepted the ASCE Construction Management Award. The award is given to individuals who have made outstanding contributions to the field of construction management as a practitioner, educator or researcher.

Gransberg’s research focuses on streamlining the procurement and project delivery for mega-projects involving infrastructure such as highways, ports, railroads, and water supply facilities. His work has been notable on several occasions, including when his research on complex project delivery was cited in a transportation bill President Obama

“ASCE Construction Management” cont. on next pg.
signed in 2012. Gransberg's findings supported justification to immediately implement Construction Manager/General Contractor project delivery, which is a method that allows an owner to engage a construction manager during the design process to provide constructability input. This achievement had also led to Gransberg's appointment by the Secretary of Transportation to the Federal Highway Administration's Every Day Counts implementation team in 2010.

Another of his projects includes assisting in developing the new $5.2 billion Panama Canal Expansion. “The major challenge for this particular project has been getting fellow engineers as well as politicians that approve the funding to accept the changes necessary to complete this highly complex project within the aggressive timeframe,” explains Gransberg.

Before coming to Iowa State, Gransberg was a full professor at the University of Oklahoma. In 2011, he was offered the Greenwood Endowed Chair in Construction Engineering. “Iowa State's construction engineering program is the nation's oldest and recognized as the one of the world's best program, so I couldn't refuse,” says Gransberg.

Gransberg also holds a permanent adjunct full professor's appointment at the University of Canterbury in New Zealand, where he has led a successful initiative to build up a construction engineering program for the past 10 years. Now, the program has more than 25 graduate students and is currently hiring additional full-time faculty.

Aliye Karabulut-Ilgu: Bringing the classroom to you

An Iowa State lecturer helps diversify education with hybrid and online courses

By Keegan Kriwant

In her role as a lecturer at Iowa State, Aliye Karabulut-Ilgu, holds a unique position within the civil, construction, and environmental engineering department. Instead of teaching classes to students, she works directly with faculty members to develop online and hybrid courses.

Karabulut-Ilgu received her bachelor's in foreign language education from her home country of Istanbul, Turkey. After her bachelor's, she continued to Iowa State University where she pursued her master's in teaching English as a second language and a Ph.D. in curriculum and instructional technology.

During Karabulut-Ilgu's work as a graduate assistant, she worked collaboratively with faculty members in the College of Engineering and College of Liberal Arts and Sciences to improve and develop online courses. Karabulut-Ilgu also helped faculty members convert traditional courses into an online course format. As a postdoc, Karabulut-Ilgu focused on designing and evaluating online and hybrid courses.

A big portion of her work is directed toward hybrid courses, or those designed to utilize both in-class and online format. To do this, Karabulut-Ilgu meets with faculty members interested in using the hybrid course format and dissects the syllabus to find static topics that can be covered in an online environment.

She then converts raw material for a course into an online format, which typically consists of creating lectures,
Karabulut-Ilgu also has plans to work on a streamlined process for preparing teaching assistants to work with online and hybrid courses.

She says her role in CCEE allows her to impact students in a less traditional but equally meaningful way. “When I’m teaching a class I can only impact a small number of students, but when I’m working directly with faculty I can reach exponentially more students.”

Outside of her work, Karabulut-Ilgu spends most of her time playing with her four-year-old daughter. She also spends time with friends and has been taking photography classes.

Karabulut-Ilgu says working at Iowa State has been a great experience. “I have access to everything I need, and I appreciate how the university is investing more into new approaches to education.” She hopes that as Iowa State increases enrollment, hybrid and online courses can help alleviate the number of students in the classroom while also delivering the same quality.

Steve Bell: Paying forward a passion for teaching

ABE lecturer returns to Iowa State after a career’s worth of field experience

By Caroline Arkesteyn

“My career goes back farther than my hairline,” jokes the newest occupational safety engineering lecturer in the ABE department.

Steve Bell (left) couldn’t be more excited to be back at Iowa State. A 1981 ISU graduate in construction engineering, he has returned to teach students all he can about safety in the field.

Bell says the concept of safety in the workplace has evolved enormously in recent years. “We, as a country, are getting safer as measured by fatalities and injuries per capita every year. We’ve always wanted to protect our employees, but not focusing on safety never had a high price before.” He says now vendors have to meet incredibly high safety standards before companies even consider working with them.

This evolution has created a big need for safety jobs in the field, contributing to Iowa State’s decision to add occupational safety as a certificate in the College of Engineering. According to Bell, “Right now, we can’t possibly fill the requests for safety graduates in our state, so there’s a huge potential.”

After completing his master’s in management at Texas A&M, Bell spent more than 30 years in business and industry, working a multitude of projects all across the United States. He spent time in Chicago working on the Chicago Library, Minneapolis creating the original Target Center, Louisville erecting twin 28-story towers, as well as Kansas,
Texas, and many other locations. His work in construction focused mainly on commercial, industrial and agri-processing industry segments. But the offer to teach students brought him to academia.

“It’s particularly meaningful to me to now dedicate my career to teaching—both as a profession and as a representative of Iowa State,” Bell says. “Teaching these students, it really doesn’t get any better than that. It’s truly a joy.” Bell is excited to be working with students face-to-face in the classroom, and he embraces the challenges of incorporating new technology. “I’ve got kids on my class list from Kansas State University, and I really want to figure out the best way to engage those distance students.”

Bell is especially thrilled to continue the legacy of the great professors with whom he once worked. “I think of Tom Jellinger, who started the ConE program in the mid-sixties and paid-forward his passion of business that he gained from industry,” he says. “Guys like Associate Professor Emeritus Jerry Chase and my fellow ConE graduate Larry Cormicle, who is a Weitz Faculty Fellow and senior lecturer for CCEE. At the end of the day, it’s really about paying it forward.”

Iowa State Construction Director named Construction Owners Association of America President

By Chris Neary

Dean McCormick (BSCEnE’81), director of Iowa State University design and construction services, was recently named president of the Construction Owners Association of America (COAA) beginning in 2016. McCormick’s appointment as president was announced at COAA’s 2015 Fall Owners Leadership Conference, held in Henderson, Nev., earlier this month.

COAA’s membership includes public and private owners who buy design and construction services, including colleges and universities, local and state government, health care organizations, K-12 school systems, and a variety of private companies representing industries such as lodging, manufacturing, and retail. The association is committed to supporting facility owners in planning, design, and construction processes through education and information exchange. “Current initiatives include the expansion and improvement of the Owner Training Institute courses, expanding partnerships with other industry organizations, and finding positive ways that owners can influence current workforce issues,” McCormick said.

As president, McCormick leads a 13-person board of directors that manages COAA business and affairs. He was appointed and served as vice president from 2014 to 2015, serves as president in 2016 and 2017, and will assume the role of past president from 2017 to 2018. McCormick has been involved with the COAA for more than 15 years, meeting many Iowa State alumni along the way. “Iowa State's College of Engineering alumni and College of Design alumni are well represented in the COAA, as owners at institutions and as design professionals and contractors providing services to COAA owner members,” he said.

McCormick has been in his Iowa State position since 1994, overseeing nearly $1 billion in accumulated
construction and expansion. Since 2009 McCormick has served on the Iowa State University Construction Engineering Industry Advisory Council, where he has contributed to industry-leading curriculum improvements and program outreach efforts.

“The COAA has been a valuable resource for me in my role at Iowa State,” he said. “This is an opportunity to give back.”

**ISU grads become renowned house flippers with a twist**

By Steffani Nolte

Re-printed with permission of KCCI 8 News

Published April 2016

---

DES MOINES, Iowa — The rehabilitation of a Victorian home in the Drake neighborhood is going viral thanks to a couple of recent Iowa State University graduates.

Michael Donlin (BSConE2014) and Ryan Francois (CE grad) are the masterminds behind Rally Cap Properties, who have a knack for turning tired Victorian homes into modern masterpieces.

“Picture frame, wood floors, big tall 10-foot ceilings a really awesome room with a lot of light,” Donlin said.

Their latest rehab on 22nd Street in the Drake neighborhood sold in three days. Realtor Gina Swanson said she has a lot of clients dying to work with the pair.

“Once it was shared on (Facebook) “For the Love of Old Houses, it just sort of blew up,” Swanson said. “The longest we’ve had a house sit is a week. As a result of this house, we pre-sold our next house that is going to be ready. We have a lot of interest in the next one after that.

“I was immediately drawn to their work ethic. You don’t run into too many people who just graduated college who are building business plans and meeting with investors and working all hours of the night.”

The pair puts much detail into each home, looking for a balance between style and budget.

“You have to really do it justice to preserve some of that old character and bring in some modern touches to really bring up the value of the house,” Francois said. “Michael and I have worked really hard to get to the point where we are now, but it’s pretty crazy looking forward, the potential for us and our business in Des Moines.”

Rally Cap Properties has already sold their next house, which is still a work in progress.

Meet Ben Bruns ’01
Des Moines, Iowa

Published by Alliance for Iowa State

If you listen to the Cyclone Radio Network you may be familiar with Ben Bruns (’01 construction engineering). He has conducted the pre-game/postgame analysis and sideline reporting since 2001.

Ben started his journey at Iowa State University in 1996 with the Cyclone football team and was named All-American at center in 2000. Upon graduating, Ben landed a position with a company that has a long-standing partnership with Iowa State: The Weitz Company.

“The vast majority of our local leadership are ISU graduates,” Ben said. “We give back significantly, and we do work on campus. It really is a full circle. One of the reasons why I haven’t left central Iowa was because of the ties that I have at Iowa State.”

Ben maintains close ties to the university’s construction projects as well, previously as project manager and now as business development director for Weitz. He has been a part of several building projects at the university including the Bergstrom Football Complex and early renovations at Jack Trice Stadium.

In addition to his football connections, Ben served on the Iowa State Athletics Hall of Fame Selection Committee, was president for the ISU Letterwinners Club, is a member of the Cyclone Gridiron Club, and received the Outstanding Young Alumni Award in 2010.

Beyond his passion for Iowa State, Ben finds time to be active in his community. He coached at West Des Moines Valley High School with the offensive line for 11 years - they won five state championships during that time. He received one of the central Iowa Forty under 40 awards in 2009. He is a 2013 graduate of the Greater Des Moines Leadership Institute and is currently in the Leading Others pilot program at Drake University. Ben is the board president for Children and Families of Iowa and serves on the boards for Amanda the Panda and the Des Moines Symphony.

“I’m continuing my adventure in Iowa by doing a job I love in a great place with tremendous opportunity for my family near ISU” Ben said. “I view ISU as so integral in the framework of who I am as a person. Once a cyclone always a cyclone.”

Ben Bruns is another great example of one of the 97,000 ISU alumni living in Iowa and contributing to the economic health of the state.

CCEE senior places first at international conference

By Caroline Arkesteyn

Kyle Younkin, a senior in construction engineering, walked away from the GeoSmart India conference with a first place title for his conference presentation. His presentation at the conference, which took place from March 1-3 in Greater Noida, Uttar Pradesh, India, was titled “Application of LiDAR and Structure from Motion Data for Road Roughness Evaluation.”

The research grew out of work Younkin had been doing with CCEE professor David White and CCEE post-doc
Ahmad Alhasan on a project with the Iowa Department of Transportation to analyze changes in gravel road roughness using laser scanning. Younkin started to consider the price of the machinery they were using ($100,000 for the scanner) and wanted to test out a cheaper option. Using a commercial grade camera and open source software, he was able to create the same 3D point cloud as the original scanner but for less than 1% of the cost.

Younkin says that allowing him to compare two different technologies so extensively is what made this research unique. “Spatial comparison has never been used this way to measure change in geometry by capture method for roadways. This method opens the door for many future studies in 3D technology in the construction industry.”

Younkin commends White and Alhasan for their support in allowing him to pursue his research interests. “I tell everyone I meet that Iowa State University is one of the best engineering programs in the country because it provides many resources to students who wish to learn beyond what is taught in the classroom.”

The experiences Younkin had at the conference and with research in general have taught him that a little motivation and curiosity can go a long way. “I want to let all undergraduate students know they have the opportunity to learn so much if they just take a shot. If they are willing to learn, work hard and make mistakes, they have the chance to sit under world-class researchers in their field and gain from their experience.”

His work in laser scanning has continued while on a student exchange program in New Delhi for eight months where he is using this technique as a research scholar analyzing emerging affordable housing systems. “Whatever you do,” Younkin says, “do it with all your heart because I believe that the world will be a better place for having engineers like you who excel in their work and take joy in what they do.”

“| want to let all undergraduate students know they have the opportunity to learn so much if they just take a shot.”

−ConE Senior Kyle Younkin on “world-class” research experiences at ISU’s CCEE Department

**In the NEWS**

Find out how ISU CCEE Department past professor and alumnus Jerry Chase brings his passion for cribbage and volunteering together in the *Ames Tribune* article “Volunteer brings love of cribbage to area children.”

According to the article, written in newspaper edition of the *Ames Tribune* from November 24, 2015, Chase (PhDCE’83) has been volunteering at the Ames Boys and Girls Club of Story County for the past 20 years. He adds his special talents to brightening the days of local kids by teaching the ins and outs of cribbage, a game of both math and skill.

You can find that story at the following: http://www.amestrib.com/news/volunteer-brings-love-cribbage-area-children. You can also find that story by searching the title in the online archives of www.amestrib.com.

Check out ISU Engineering Career Services at engineering.iastate.edu/ecs/
Iowa State University construction engineering alumni, family and friends are invited to the 21st Annual Whitfield & Eddy Law ConE Reunion at Exile Brewing Company in downtown Des Moines, Iowa. ConE alumnus Jeff Stone will be the host of the event in conjunction with the Iowa State University Civil, Construction and Environmental Engineering Department staff and leadership.

Heavy appetizers and beverages will be sponsored by Associated General Contractors of Iowa, Master Builders of Iowa, Holmes Murphy and Associates, and RSM LLP. Current Iowa State University CCEE students will be holding raffles for Iowa State University prizes and memorabilia.

Look for invitations in the mail for regional alumni. As the event approaches, look for more information at the Whitfield & Eddy Law website, www.whitfieldlaw.com.

I am 100% happy with my ConE education at ISU. That resulted in our having a good sized heavy civil construction company. We worked all over Alaska and the western Pacific Rim from Guam, Federal, mostly Dept. of Defense. Détente was good for the Planet but hard on our business and we sold out in the early 1990’s. In the 1980’s we had gotten into commercial fishing as a strategy to keep our kids busy and for them to pay for their education. That company, The Popsie Fish Company, has grown and today we are selling our sockeye salmon products nationally. I work at it full time, commercial fishing in the summer and selling salmon. Gwen had gone to law school after our construction tapered off and now has a very busy practice in Homer, AK. She commercial fishes as well, running her practice from our fish camp. Daughter Sarah is our Captain and teaches school in Portland, OR otherwise, and her kids are now fishing crew. Son Siri works at Costco in Florida and comes out to Alaska for commercial fishing as well. Son Jeff is a mechanical engineer in Waterford, Ireland, and serves as our company IT and engineer. Our salmon is sold in Iowa and you can buy it at Wheatsfield Co-op in Ames. I was halfway through ISU in ArchE when the ConE program was started, I jumped majors in a second, but our class was small! I’m friends with classmate Cork Peterson, who I see every year. He has put his ConE education to excellent use right there in Iowa.

Still working. Or working on retirement. My boss puts up with me 3 days a week. The last couple years have been pretty mellow* since I am rarely doing project management and mostly doing structural design work or teaching young engineers. I think I’m doing a good job (for an old guy) of keeping up with the advancements in software and “upgrades” to our major software programs. Still thankful for the quality of education I received at Iowa State! Not sure that all the youngsters that I work with understand the importance of being able to derive answers to structural engineering problems by hand as

cormicle@iastate.edu

My fourteenth year as a Con E faculty member was another great year. Our students are great to work with and I find them some of the brightest young professionals that are entering into our industry. Con E grads are benefiting from a 100% placement rate upon graduation, and the summer internship program is experiencing an all-time high in enrollment. I continue teaching two courses per semester and advising the ASC Student Competition teams. The AGC Student Chapter
was awarded first place in the AGC Outstanding Student Chapter contest for 2015, their 10th first place finish, and the 6th first place finish in my role as faculty adviser. Our ASC teams have placed first 34 times in the fourteen years that I have coached. Our students definitely understand how to “win” the proposal. I have completed eleven years as the Con E curriculum committee chair and am looking forward to again making improvements to our degree program. My passion is to educate the greatest builders and industry leaders.

We are very blessed with four grandchildren, ages 6 months to 8 years old. Our fourth, a grandson, was born in mid-August 2015. Seeing the world through the eyes of my grandchildren is a wonderful part of life as a grandparent. Mary Beth and I are enjoying our four grandchildren every chance we get. If any of you travel to Ames for personal or recruiting reasons, stop by and say “Hi”.

Elsner, Ron
Business:
North Country Power Project Consultants, LLC
1285 97th Ave NW
Coon Rapids, MN 55433

I retired from the Iowa DOT in December 2015, after 32 ½ years of service, with the last 6 as Highway Division Director and Chief Engineer. In February 2016, I started my next career phase in the position of Sr. Vice President with Knight Engineers and Architects. We are in the process of establishing an Iowa office and reside adjacent to the ISU Research Park in Ames, and I’m looking forward to the new challenges.

After working with a western Iowa general contractor for 30 years, we started our own company. My wife and I are a small commercial building general contractor working in central Iowa. So we do everything – all the estimating, administrative work, supervise jobs and yes, cleaning. At times we can’t hardly keep up with the work and other times we have more free time to spend with our family. If any of you are considering working for yourself, don’t be afraid of it. It has been good to us.

It has truly been a year of landmarks. Receiving my e-mail congratulation on my 35th anniversary from graduation of ISU was both harsh (can’t believe it has been 35 years!), as well as gratifying as I look back on the great people I have had the opportunity to work alongside.

Back to the landmarks – we are completing extraordinary projects this year – Hancher Auditorium and Voxman Music Building for University of Iowa, as well as Marston Hall renovations at ISU – not to mention the renovations of Schindler Hall at UNI. Being on all three institutions at the same time gives us great perspective how lucky we are to have all of them in Iowa. The greatest landmark for the year was the announcement by my son Dan and his wife Amanda that Sue and I will become grandparents the end of August! Just need to start pulling down the Tonka Trucks from the attic and giving them a once over – Can’t wait.

If you are around the Iowa City area – please stop in – would love to see you.

Scottsdale, AZ 85251
Enjoying my later-in-life switch to a new profession. Recently moved on the premier real estate brokerage here in the Phoenix metro area with Russ Lyon Sotheby's International Realty, a part of the Sotheby's International group. Real estate is a very hard business to break into, but the rewards promise to be good...it is a referral business, and so I am hoping if anyone is considering moving to Arizona, that I might be of some assistance to any fellow ConE grads!

Heather Stuebner and husband Erich

I will be retiring in October 2016 (before the snow flies in Wisconsin) after working 35+ years with the same construction company that hired me straight out of ISU. The Bridge Construction Industry has been a very interesting and rewarding career for me. A recent change in ownership has made the last few years more difficult, so it is time to get out and enjoy life. Becky and I have purchased a motorhome and will be traveling full-time throughout the continental United States and Canada. Maybe we will be able to get the chance to catch up with former classmates in our travels.

Hyler, Susan

Life is good here in Asheville, NC. Georgia turned 23, and I am not feeling a day over ____! Good health, good family and good friends – not much else required here in Asheville.
I am continuing to grow my WBE Business and it looks like a good year financially. The roller coaster of a small business. I am currently providing scheduling services for many NYC DEP projects and several design/build WWTP projects in VA/TN. I prepare schedules during the design BODR-90% phases for anticipated construction to identify overall duration/constraints/constructability issues. Bridging the gap between the Engineer’s design and just how are we going to build the project.

Have a great year!

Morris, Michael (Jeri)

Business:
Saudi Arabian Parsons Ltd (SAPL)
Yanbu al-Sinaiyah, Madinat 41912
Saudi Arabia

Home:
3014 Longfellow Blvd.

I’m finishing up a three-year gig as “Senior Resident Project Architect” here in Saudi Arabia on a 22-story office building on the shore of the Red Sea. For the most part, my role is to fill the holes in the construction documents and assure the quality of the work. While living in Saudi Arabia is certainly different from living in the US (image a place with no 24/7 convenience stores, and everything closes for a half hour several times a day for prayer time), it has had its rewards. I’ve made many new friends and have had experiences that few have the opportunity to try, and will be somewhat sad to be moving on to the next adventure in the next month or two. But I don’t think I’ll miss those 120-degree afternoons.

The project itself is seeking LEED certification, has two stories of covered parking at its base, and will house 1800 employees when fully occupied. The project was designed by a middle eastern firm and is being built by a Chinese contractor, so language barriers are every present. Sadly, my Arabic and Chinese have not really seen any improvement in this time. In any event, the experience has given me a new appreciation for the AIA contract documents with respect to administering this project.

guetzko.mark@seedorff.com

Children:
Sophie (21)
Harrison (19)

Lisa and I are officially empty nesters and ironically, busier than ever. Sophie has a bachelor's degree in communications with a leadership minor from Hope College, and will be pursuing her master's in communication technologies at Ball State this fall. Harrison just completed his freshman year in engineering at Iowa State and is working as an intern at Architectural Wall Systems this summer.

In January 2015 Seedorff Masonry acquired the assets of Architectural Wall Systems, and the two firms joined forces. The new partnership positions our team to pursue virtually any exterior envelope system, with a specific interest in rainscreen technologies. We're looking for innovative approaches to simplify and improve the performance of the exterior envelope through a design assist delivery model.

We have some incredibly talented ConEs on our team, and we enjoy the opportunity to work with Iowa State Con E grads in the industry!

Sammamish, WA 98074
markbaughman13@gmail.com

Children:
Olivia (16)
Greg (13)

Mark has passed the 26 year milestone working for Mortenson and continues to support operations as well as project teams on various healthcare and hospitality projects in the Seattle and Portland markets.

Nici moved to teaching 1st grade and still enjoys the fun of teaching at the neighborhood school 3 minutes from home. After 18 years of teaching in the various nearby elementary schools it’s difficult for her to go anywhere in the town of Sammamish without being a celebrity.

Olivia will be a Junior in high school this fall and is involved in many activities. She is especially looking forward to driving herself everywhere for a change. She has started looking at colleges, but ISU is not being considered (yet).

Greg will start his final year of junior high this fall and has surpassed his mom in height (he’s excited, she’s not). As a typical 13 year old he’s very into playing his guitar, playing in the jazz band, his longboard (skateboard), hanging out with his friends, and avoiding chores.

We’ve lived in the Seattle area for almost 20 years and
feel very fortunate to have found a safe and friendly community to live, work, and raise our family.

I have had several opportunities throughout the years since my time at ISU. I am currently working at U.S. Army Corps of Engineers, stationed at Saylorville Lake – Des Moines, IA, as an Area/Resident Engineer. We handle all the construction contracts in Iowa west of Iowa City. The job is rewarding and very challenging.

I am blessed to have 3 kids and enjoy the wide realm of activities associated with them. We keep very active in sports, boating and leisure time. Our family would like to wish the very best to all of our Con-E alumni!

As a Director of Learning at Kiewit, I have the opportunity to work with many other cyclones to build the best builders through our technical and professional development programs.

Kathy, the boys and I have settled back in North Carolina after four years in South Africa and one year in Kansas. I recently caught up with a former ISU ConE Professor, Ed Jaselskis, who is teaching at NC State. We had a great time reminiscing and talking about the ConE programs at ISU and NC State. If anyone is going to visit the Raleigh, NC area, you have an open invitation to stop by and see our construction operation or go fishing with me at the outer banks!

All is well in the Hartmann home. We are all very glad that summer is here. Nate completed 8th grade and will be heading to Ames High School (AHS) in the fall. Hannah graduated from AHS and will be attending Iowa State in the fall. She will major in Biological and Pre-medical Illustration and minor in math and music. I graduated too (finally)! Tim continues to take care of everything on the home front. The kids and I took over his duties in late May, so he could get a new knee. I’m excited to travel to West Point in July to serve as a mentor for the ASCE ExCEEd Teaching Workshop. The
rest of my summer will be busy with preparing for next year’s courses.

After spending a year and a half in Portland, we love it and have bought a house. The family really enjoys it out here and work is going well. The market is busy and JE Dunn continues to do well. I just hit 18 years with JE Dunn and continue to enjoy my work and the great people I work with.
I’m currently repurposing, up-cycling, creating, and making new things out of old stuff. I design custom art and usable pieces to fit my client’s needs and wants. I still use all of the Con E basic principles of planning, scheduling, design, and construction, I just implement them in a different fashion now.

In 2014, Bush Construction was recognized by Inc. magazine as the 3rd fastest growing private company in the state of Iowa. We are always looking for more great people.

It has been an exciting year since switching to another sector of the contracting community. I started at RJ Tide on June 1, 2015. RJ Tide is an employee owned concrete company which is run much like a general contractor (since we all came from that background). Looking forward to another fast paced year as the market in the Sioux City area is booming!

My family continues to be blessed as our children grow in size and knowledge every day. I hope and pray that you and yours are safe and happy as well!

I have been out of the construction industry for a year (still have some clients I work with though) and focusing on growing JonnyPops into a national and household brand! Business is good, and we are growing at a rate of 400% year over year. We have distribution throughout the Midwest and Costco has taken us to Texas, Georgia and Florida. Will be looking to expand our facilities in the next 18 months, so will be able to put my hardhat on once again and help with that, which will be fun!

Hard to believe I will be with Ryan Companies five years in September! The past year has seen unique projects with Terrace Hill governor’s mansion, the Iowa State Patrol and the State Historical Building. 2015 was a fun year in the community – Ryan was part of the project team for phases 1 and 2 of the Ankeny Market Pavilion (at trail head destination for the High Trestle bike trail). I was also able to have a leadership role with a new home build with the Greater Des Moines Habitat for Humanity. Jen and I are staying busy with the kids – lots of time outside in the garden and playing in the water so far this summer.

Mia (2)

Bryan and I have moved up to Ankeny and are working on the Altoona Data Centers. Bryan is the QA/QC Manager for the entire site and I’m in charge of all Owner Furnished Contractor Installed (OFCI) equipment from procurement through closeout. It’s been fun and we are truly enjoying being back in Iowa, closer to family, college friends and ISU (of course)! Our daughter is growing more and more (Bryan says becoming more like her mama, but don’t let him fool you – she takes after him too!) I’m still the Central Region Sustainability Manager for Turner and the KC Sustainability Manager. In my spare time I’ve taken on a new role with the ISUAA Board of Directors as Chair-Elect for 2016-2017 and then Chair 2017-2018. I look forward to the opportunity. We enjoy traveling together, showing Mia new places (can you believe she’s been to 10 states already at age 2?). We also have enjoyed going to more ISU sporting events and being back at ISU and the CCEE Department.
If you’re in the neighborhood, feel free to get ahold of us; we’d love to see you and catch up! As always, Go Cyclones!!!!!

My husband and I have been living in the Kansas City area for 5 years now, and really enjoy it! We’ve been involved in everything from sporting events to curling and sand volleyball clubs, charities and galas, from home remodeling to gardening, and are currently starting our churches Youth Ministry Group, with lots of odds and ends in between. I officially left managing construction projects about two years ago, but no worries, I still get to do our nerdy math stuff, and I love it! I work to understand the financial goals of businesses and families. Flip over the puzzle pieces of what they currently have in place to then help them organize and implement a comprehensive plan for their future.

I am in my 2nd year working for ISU! I am happy to continue helping improve one of the best college campuses in the country. I also bought a house in Pleasant Hill in March and am excited for this new chapter in my life!

---

I have recently completed my 5th move with Burns & McDonnell, this time back to our World Headquarters in Kansas City, MO. This past year I have completed a Natural Gas Fractionation Plant in Mont Belvieu, TX as well as a First Generation Biodiesel Plant in Nebraska. With my move back to our KC office, I will be changing roles from Assistant Project Manager to Field Operations Coordinator.
I am a Field Engineer training to be a Superintendent by working as a Journeyman Carpenter for JE Dunn. My current assignment for 2016 is doing layout for the Two Light Tower project in downtown Kansas City.

At the Senior Banquet(s), graduating seniors were asked to fill out a form that included their future plans and how they would like to be remembered. We have reprinted this information for those who gave us permission. Congratulations to the graduates!

Ahrenholtz, Zachary
Hobbies: Boating, woodworking, hanging out with friends and family
Future plans: I plan on going to work for Turner Construction prior to graduation at their Kansas City location.
How would you like to be remembered?: Always on task and always trying to do my best to my ability.

Emerson, Ryan
Hobbies: Hunting, fishing, remodeling, camping, music
Future plans: Work as a Project Engineer for DPR Construction in Austin, Texas. Work hard to continue building communities and make a difference. Establish a life and family away from the cold Iowa winters.
How would you like to be remembered?: As the organizer of the Best ConE Bar Crawl in CCEE history.

Flott, Joshua
Hobbies: Hiking, fishing, camping, hunting, trap shooting
Future plans: Enter OMT program at Union Pacific as an Engineering Associate (Structures), move to Ft. Dodge, IA for work.
How would you like to be remembered?: Being a positive kid with the boot.

Griffin, Brandon
Hobbies: Community service, golfing, fishing
Future plans: Start working for Ryan Companies as a Field Engineer in Des Moines, IA.
How would you like to be remembered?: Being the number one architect, on the number one senior design team.

Happe, Matt
Hobbies: Guitar, camping, hockey
Future plans: Job, family, etc.

Ji, Yuan
Hobbies: Photography, piano, basketball
Future plans: Back to China and try to become a professional engineer.
How would you like to be remembered?: An organized, quiet person.

Jutz, Molly
Hobbies: Watching hockey and baseball, hiking, spending time with my family
Future plans: Starting as a Project Engineer with Kraus-Anderson Construction Company in Minneapolis, MN in February, 2016.

Kern, Joe
Hobbies: Camping, fishing, snowboarding, playing cards, carpentry (tables, shelves, coat racks, etc.)
Future plans: Start at Baker Group in January 2016 as a Design Engineer. I will be working on mechanical design for REG (Renewable Energy Group) biofuel plants. Goal: Earn my PE within 5 years.
How would you like to be remembered?: CEO of the MEP office in the corner of the Capstone Lab.

McConnell, Ethan
Hobbies: Hunting, fishing, trapping, racing
Future plans: Work as an Estimator for Katelman Steel
Fabrication in Council Bluffs, IA.

**How would you like to be remembered?** If you see a guy hat with a #3 on it, it's me.

**Menzel, Sam**  
**Hobbies:** Wing, beer, sports  
**Future plans:** Working at R.A. Morton  
*How would you like to be remembered?* Pure class and excellence.

**Mooers, Braden**  
**Hobbies:** Going to Iowa State sporting events and skiing in Colorado  
**Future plans:** Start a family in central Iowa while working as a Project Manager for a construction company.  
*How would you like to be remembered?* As a hard working team minded individual.

**North, Erin**  
**Hobbies:** Photography, drawing, painting or pretty much anything crafty  
**Future plans:** I will be working at Story Construction as a Project Engineer. I want to get married and start a family. Eventually I want to design and build my own house.  
*How would you like to be remembered?* As a dependable teammate and a good friend.

**Regan, Travis**  
**Hobbies:** Being with friends and family, sports and being outside  
**Future plans:** I will be working as a Project Engineer at Renewable Energy Group (REG) in Ames.  
*How would you like to be remembered?* A hard worker, helper and team player.

**Savage, Will**  
**Hobbies:** Basketball, gym, reading, hanging out with friends  
**Future plans:** Industry experience then entrepreneurship with building/construction-related field.  
*How would you like to be remembered?* Will, easy to talk to, ability to be serious and hard working, but also be able to ask myself – “How am I going to make this fun for everyone.”

**Schlotfeldt, Cameron**  
**Hobbies:** Fishing, hunting, camping, golfing  
**Future plans:** Move back to Cedar Rapids area, working for Ryan Companies office there. Start building my life back home in anticipation of starting a family.  
*How would you like to be remembered?* The hillbilly who took life by the antlers.

**Sheehan, Christopher**  
**Hobbies:** Watching football, tennis, paintball, spending time with friends and family  
**Future plans:** Begin working as a Project Engineer for Tri-City Electric in January of 2016. I will also be getting married to my finance Emily in November of 2016.

**Turner-Gentsch, Miles**  
**Hobbies:** Soccer, history, tinkering  
**Future plans:** Working for Taylor Bros. in estimating/engineering and HQ to start, then hopefully to Tappan Zee Bridge around June.  
*How would you like to be remembered?* I was a bit of a slacker to start my first couple years, but with field experience and personal growth, I’ve come to be a hard-working, passionate individual. I guess that’s a typical college experience, and I wouldn’t do it any other way!

**Van, Richard**  
**Hobbies:** Spending time with family, outdoor activities, playing hockey, weight lifting, golfing  
**Future plans:** Having a career with Kiewit  
*How would you like to be remembered?* Winning 1st place for the Heavy Civil team at the 2015 ASC competition.

**Zhao, Xinyuan**  
**Hobbies:** Traveling, photography  
**Future plans:** Get married after graduation and go to job.  
*How would you like to be remembered?* I’m not an outgoing person. Not sure others will remember me.

**BS 2016**

**Aljets, Adam**  
**Hobbies:** Hunting, fishing, golfing, outdoors  
**Future plans:** Starting my career at Keen Project Solutions in Ames.

**Boesen, Ben**  
**Hobbies:** Lifetime sports: bowling, golf, darts, pool, etc. Also am quite the Green Thumb.  
**Future plans:** Become a successful Project Manager leading the development of the wonderful Des Moines, IA.  
*How would you like to be remembered?* The big friendly guy always looking to better someone’s day.

**Bolton, Jerry**  
**Hobbies:** Hot air ballooning, spending time with friends, golfing, fishing, watching various sports  
**Future plans:** Working for McCarthy Building Companies in Dallas, Texas as a Project Engineer.  
*How would you like to be remembered?* I would like to be remembered for being a hard worker, and being
highly involved within the ConE program.

Boyle, Lucas
Hobbies: Ultimate frisbee, lifting, traveling, spending time with family/friends
Future plans: I will be working for Russell Construction as a Project Engineer in the Midwest.
How would you like to be remembered?: As a friend/teammate.

Christiansen, Pete
Hobbies: Boating, golf, hunting, and anything that involves being outdoors
Future plans: Working as a Design Engineer at PKMR Engineering in Lenexa, KS.
How would you like to be remembered?: Someone who worked hard and was always willing to help while having fun in doing so.

Determan, Desiree
Hobbies: Swimming, fishing, crafts
Future plans: Engineer in Training for Kansas DOT.
How would you like to be remembered?: For my honesty, hard work, and bubbly personality.

Dusenberry, Robert
Hobbies: Sailing, boating, biking, weightlifting, traveling
Future plans: Mechanical design work at DLR Group in Des Moines. That’s all I have planned right now.
How would you like to be remembered?: Hardworking and always trying to have a good time no matter the challenges.

Gorz, Robert
Hobbies: Basketball, seeing friends, Frisbee
Future plans: Project Engineer for McCarthy Building Companies in Omaha, NE.
How would you like to be remembered?: Work hard, play harder.

Hansen, Haylee
Hobbies: Running, fishing, hanging with ConE's
Future plans: I am moving to Kansas City to work for Burns & McDonnell.
How would you like to be remembered?: As a passionate and dedicated ConE who “works hard and plays harder.”

Hayes, Frank
Hobbies: Fishing, golfing, biking
Future plans: Begin working for Miron Construction in Cedar Rapids, Iowa as Project Manager.

Heldt, Arthur
Hobbies: Outdoor sports and hanging with friends
Future plans: Work with the Beck Group as a Project Engineer and eventually move into a Project Manager.
How would you like to be remembered?: As a hard working individual who works with a lot of pride and integrity.

Henderson, Michael
Hobbies: Fishing, golfing, football
Future plans: I plan on getting a job back in Minnesota and just seeing where things go from there. I plan to move up as high as I can in the company I start working for.
How would you like to be remembered?: Dirty Decker and The Boys

Holt, Margaret
Hobbies: Reading, drawing, cooking, binging Netflix, game nights
Future plans: Whatever I do, I want to be happy. As long as I’m satisfied in my career and know that I’m living a life of integrity, I think I will accomplish that.
How would you like to be remembered?: When people think of me, even if it is only ever for a fleeting moment, I want the feeling that I invoke to be positive.

Holtz, Josh
Hobbies: Farming, fishing, outdoors
Future plans: Build bridges in the upcoming years. Also buy a house.
How would you like to be remembered?: As a humble person that is always willing to help out.

Johnson, Lucas
Hobbies: Carpentry, snowboarding, reading, staying busy w/different organizations
Future plans: Work for McCown Gordon Construction in KC, get married in October to Katie; have fun, and live life!
How would you like to be remembered?: Hard working and genuine.

Kisling, Carson
Hobbies: Golfing, building, carpentry, swimming and fishing, hunting, girls
Future plans: Project Engineer for McCarthy Building Company in Corpus Christi, Texas.
How would you like to be remembered?: Dirty Decker & The Boys.

Lines, EJ
Hobbies: Golf, basketball, woodworking
Future plans: Getting married in May. Moving to Minneapolis to work for M.A. Mortenson.
How would you like to be remembered?: A hard worker that wants to help people. I like to think that I’m a good teammate that works to leave a positive impact on those
Marroquin, Bryan  
**Hobbies:** Weightlifting, play soccer, playing sports in general  
**Future plans:** Work with Baker Group and find any reason to go abroad.  
**How would you like to be remembered?:** I would like to be remembered as someone who isn’t afraid to try new things, someone who is very open-minded and very hard working.

Martinson, Drew  
**Hobbies:** Sports, guitar, being with friends  
**Future plans:** Work in Illinois and someday have a family.  
**How would you like to be remembered?:** Good at what I do.

McGrew, Reece  
**Hobbies:** Hunting, fishing  
**Future plans:** Highway Construction with Manatts Inc.

Meirick, Colton  
**Hobbies:** Hunting, fishing, woodworking  
**Future plans:** Working as an Engineer/Supervisor for Heartland Asphalt in Mason City, Iowa. Hope to start a family in the future.  
**How would you like to be remembered?:** Being involved in the program, as well as AGC. Always willing to have a good time with fellow ConE friends.

Miller, JT  
**Hobbies:** Golf, hunting, hanging with friends  
**Future plans:** Work for Architectural Wall Systems.  
**How would you like to be remembered?:** Fun, hardworking, outgoing.

Monaghan, David  
**Hobbies:** Being outside, running, cycling, golfing, attending FAC on Welch  
**Future plans:** Weis Builders (MSP) traveling Superintendent position.

Perrenoud, Lyndsie  
**Hobbies:** Fishing, bowling with fellow ConE’s, guitar hero  
**Future plans:** I’m working for JE Dunn down in Dallas, Texas as a Project Engineer.  
**How would you like to be remembered?:** As an awesome ConE who always had a smile and was willing to help out.

Saemisch, Skyler  
**Hobbies:** Biking, disc golfing, fishing, sports, PC gaming and streaming, spending with with friends and family  
**Future plans:** Planning on living with my dad for about 6 months to save some money to get my own place. Accepted a job at EFCO Forms as a Field Supervisor in Des Moines.  
**How would you like to be remembered?:** A respectful and hardworking individual, always ready to try new things.

Sauter, Paul  
**Hobbies:** Boating, building houses  
**Future plans:** Job: Word Electric Company (Estimator/Project Manager).

Schaaf, Chris  
**Hobbies:** Building, woodworking, hunting, fishing, golf  
**Future plans:** I will be starting with Graham Construction as a Field Engineer.  
**How would you like to be remembered?:** As a good friend, father, and an important member in my community.

Thomas, Brian  
**Hobbies:** Cycling, disc golf, running, all other sports  
**Future plans:** Getting married August 2016. Moving to Milwaukee to start work end of May with CG Schmidt.

Tuggle, Josh  
**Hobbies:** Spikeball, intramurals, juggling, unicycling, making memes, videography  
**Future plans:** Renovating an RV, working for Mortenson’s RE Group and traveling around the nation to different jobs for 2-5 years. Then end up back in the Midwest to raise a family.  
**How would you like to be remembered?:** One of the wildest ConE’s that always wore shorts, made memes of Larry, and literally stood for the ConE’s motto, “Work hard, play harder” – Peace!

Viverito, Jack  
**Hobbies:** Anything and everything AGC and NAHB, watching/playing sports outdoors, working with my hands  
**Future plans:** Soon to be Project Engineer with Power Construction and buying a truck ASAP.  
**How would you like to be remembered?:** Heavily involved with AGC and NAHB, always busy with cabinet responsibilities and enjoying every minute of it!

Wasser, Jason  
**Hobbies:** Hockey, woodworking, intramurals, mug night  
**Future plans:** Begin as a Project Engineer for International Contractors, Inc. Work to PM/higher level position. Have a family in Chicago.  
**How would you like to be remembered?:** Athletic and comedic, loved the ups and downs of engineering.

Watts, Jay
Hobbies: Golf, watching sports, spending time on the lake
Future plans: Project Engineer for Bower Engineering.
How would you like to be remembered?: Fun fella.

Construction Engineering Class Lists
By Calendar Year - Provided by the ISU CCEE Construction Engineering Program

The 1963 Bachelors graduates
Bruce Byers, Jack Gethmann, Terry McGiverin, John Sorenson

The 1964 Bachelors graduates
Andrew Ask, Halvard Johnson, Thomas Line, Tony Neal

The 1965 Bachelors graduates
Richard DeMore, Steve Dunlap, Gary Gotfredson, Ann Lavalie-Schar, Warren Vosler

The 1966 Bachelors graduates
Fred Andringa, Jim Bruhaker, Glenn DeStigter, Jerry Gosselink, Rich Greenlee, Ray Hendrix, Pat Klein, Norm Larson, Vaughn McIlrath, Cork Peterson, James Prochaska, Tom Wedewer, Tom Werderitsch

The 1967 Bachelors graduates
Darrell Ball, Bob Behling, Mike Carlstrom, Daryl Hallquist, Gary Hemmen, Pete Kaser, Gary Lamb, Doug Lysne, Mike McPherson, John Miller, Mike Paradise, Tom Peterson, Noel Raufaste, Pat Rossmiller, Russ Wall

The 1968 Bachelors graduates
Don Alm, Leon Ihle, Gerry Larson, Dave Lovejoy, Steve Maloney, Loren Menz, Paul Moltz, Steve Murphy, Rich Oehlerts, Ron Southard, Harold Sullivan, Marvin Ten Clay, Mike Terrell, Larry VanManen

The 1969 Bachelors graduates
John Buyert, Roger Gilbert, Dennis Lindsley, Tom Prendergast, Jack Taylor, Gregg Tharnstrom, Sam Thomas, Jock Thompson, and Ed Voss

The 1970 Bachelors graduates
Jim Berkland, Edd Collins, Joe Dahlman, Les Duff, Bill Frank, Dan Gannon, Jack Guinn, Stanley Hanson, Dave

Johnson, Steve Jones, Loren Kneeland, Everett Krug, John Martin, Denny Miller, Merle Ocken, Doug Ohde, Bob Prosperi, Terry Randall, Joe Sanders, Rich Schultz, Bob Smalling, Steve Treharne

The 1971 Bachelors graduates

The 1972 Bachelors graduates
Bob Agnes, Jim Benike, Bob Blahnik, John Borns, Doug Brandes, Ron Deihl, John Detlefsen, Phil Eckhoff, Bill Eich, Chuck Floyd, Steve Grosland, Tod Hanneman, Dan Ilten, Norm Kootwyk, Gerry Lange, Dennis Lewis, John Lukin, Russ Manning, Larry Moeller, Mike Murphy, Ken Seeger, Mark Shumate, Tom Sido, Mike Stangl, Jim Stecker, Rich Sulzbach, Dennis Thompson, John Walters, Steve Werden

The 1973 Bachelors graduates

The 1974 Bachelors graduates
Jim Backman, Dean Barrett, Bob Boswell, Dave Brooks, John Cahill, Paul Campbell, Jim Dickinson, Jason Evans, Warren Fortune, Miles Gardner, Doug Johnson, Tracey Lambert, Steve Leavitt, John Lutt, Ed McCormick,
Chuck Nizzi, Gil Perry, Mike Petersen, Bill Pfeffer, Roger Repstien, Jon Tiemeyer, Larry White, Mike Whitlatch

The 1975 Bachelors graduates

The 1976 Bachelors graduates

The 1977 Bachelors graduates
Doug Barry, Dave Bartilson, Steve Blount, Steve Braesch, Cragon Caboth, John Christensen, Gary Crist, Milt Dakovich, Guy Deal, Dave Dickinson, Neal Dodd, Bryan Duffy, Donald Engstrom, John Evans, Ted Feilemeier, Bob Fett, Tom Finnerty, Guy Gast, Bill Goodall, Nick Gronzweig, Craig Hansen, Howard Harris, Steve Hay, Tom Hughes, Judd Hunemuller, Paul Johnson, Paul Koester, Greg Larson, Don Martin, Pat Murray, Leon Naberhaus, Jim Robinson, Dean Sandell, Tom Stockdale, Tim Sullivan, Jim Swanstrom, Terry Thompson, Tim Wheeler

The 1978 Bachelors graduates

The 1979 Bachelors graduates

The 1980 Bachelors graduates
The 1981 Bachelors graduates

Ahmad Aliwat, Curt Andersen, Brian Anderson, Rick A. Anderson, Gary Barkhurst, Bruce Beisler, Steve Bell, Jim Benge, Craig Bjorklund, Jim Brady, Tim Brady, Monique Campos Lange, Mike Carpenter, Randy Clarahan, Randy Cole, Thane Davis, Doug DeStigter, Tim Dillavou, Scott Dixon, Kirk Drees, Loren Field, Rich Flathers, Earl Fleagle, James Fosdick, Don Foster, Kent Friedrichsen, John Gehrls, Jim Getman, Paul Goldhorn, Brett Gunnink, Gerry Granahan, Jeff Hall, Peter Hall, Lee Hansen, Hans Hansl, Alex Hart, Doug Herrman, Greg Higginbotham, Doug Hirsch, Kevin Holcomb, Al Holmberg, Larry Hurley, Mark Hunisicker, Gregg Hunter, Scott Hurd, Mike Hutter, Susan (Colbert) Hyler, Craig Kelling, Greg Knau, Dale Knueppel, Robert Krier, Doug Kumm, Kevin Kupka, Ian Lamp, Robert Lie, Dave Little, Brian Littrell, Bob Logan, Steve Logue, Steve Loudin, Jim Lowndes, Mark Loyterkamp, Craig Mack, Chris Manning, George Martens, Peter Martin, Marty Massman, Gary Matt, Dean McCormick, John McDonald, Maryam Morshed, Scott Morton, Pat Neelan, Joe Nestvedt, Jim Nissen, Thomas Novak, Kevin Osgerby, Brad Palmer, Neal Palmer, Gerald Peterson, Deb Pullen-Workman, Owen Raun, Joel Reinert, Steve Roberts, Karl Roth, Mike Sample, Randy Sanman, Bob Sautter, Jeff Schebler, Terry Schroeder, Jim Schwmanman, Tim Seibert, Dan Sloan, Gust Sotropulos, Craig Spidle, Jeff Stewart, Glen Stinn, Dave Tech, Tom Thomas, Jim Thompson, Dan Timmons, Brent Underwood, Dan Venter, Mike Welter, Dave Wenthe, Dave Wesely, Bryan Zarn, Doug Zerbe

The 1982 Bachelors graduates

Roger Anderson, Nick Badding, Matt Bailey, Mark Ball, Kent Bearson, Dan Biere, Ralph Boedecker, Mike Bontrager, Tim Boone, Steve Bosshart, Gretchen Bothwell, Scott Brethauer, Ken Chicoine, Scott Cicciarelli, Daniel Conley, Sarah Craiger, Scott Crosser, Kevin Culp, Bob Dakovich, Dean Denardi, Bob Doss, Dwight Dohlman, Victoria Dumdei, Amir Ebrahimii, Jeff Ehm, Mike Ellingson, Bryan Faktor, Gary Fleming, Jeff Forbes, Dennis Ford, Carey Fowler, Jim Fry, Jay Gabrielson, Bill Gahan, David Gatto, Jeff Geske, Mike Gritters, Dan Hanson, Bob Harmon, David Hawn, Kevin Helgevold, Tim Henderson, Matt Hetzler, Paul Higgins, Steve Ho, Rod Hoffman, Tony Hovenga, Dave Hullinger, Bill Johnson, John Keleher, Steve Kleiman, John Knibbe, Brian Knudsen, Mark Kramer, Fred Langdon, Gary Leach, Chris Lindhart, Jerry Long, Scott Madson, Todd Mattison, Kimberly McDonnell, John Meis, Brad Mills, Al Molin, Michael Morris, Gary Noel, Mark Olson, Paul Oberhaus, Tom Parham, Mike Parsons, Mark Rasmusson, Randy Reihmann, Tom Rolfs, Mike Schmidt, Rick Schultze, Scott Shriver, Mike Shuba, Craig Southorn, Brad Streethylow, Jay Swanstrom, Scott Thompson, Rich Tjelmeland, Kevin Tubbs, Aniekan Usoro, Dan Van Dyke, Larry Welder, Sherman Welker, Jeff Wenzel, Steve Westby, Eric Wilbur, Tim Wright, Jeff Yoder, Dave Yungclas

The 1983 Bachelors graduates

Kouros Ansari, Jon Barstad, Tim Bickert, Bret Broullette, Jim Cooper, Scott Cranston, Jim Cripps, Jay Dillavou, Jeff Dingwall, Rhonda Distefano, Doyle Doyle, Bryce Erickson, Gary Fentress, Mike Gerard, Abolghassem Ghafozhi, Mark Gmitro, Jim Greco, Nizar Hamad, Mark Haynes, Galen Heying, Scott Higgins, Keith Hill, Ken Houseman, Mark Hutchens, Behzad Jafari, Stephanie Jessen, Brent Johnson, Hamdi Kanaan, Jeff Knight, Greg Kooker, Jeff Larson, Bryan Lower, Bill Lubbert, Jeff Lucas, Brad Martin, Pat McDonald, Don Medema, Phil Neumann, Scott Niebuhr, John Nieman, Nia Ong, Jim Patrick, Lowell Penning, Doug Perrenoud, Gerald Peters, Tim Ranch, Basil Rhymes, Tim Rigsby, John Rivisto, Jim Russell, Ben Schwab, John Shikaitis, Jamie Sipes, Todd Sirotiak, Jeff Smith, Ray Smith, Kelly Stevenson, Doug Struss, Mike Sugre, Bob TenEyck, Clement Teo, Bruce Thomas, Kim Watson-Eberhard, Dave Wharf

The 1984 Bachelors graduates

Greg Anderson, Steve Boat, Donna Buchwald, Jon Bueneke, Kevin Butts, Scott Cahalan, Jeff Clancy, Lori Clement, (Michael) Al Coluccy, Dave Coziah, R. Andrew Cox, Tom Coziah, Kevin Currie, Kevin Decker, Steve Donner, Joel Doyle, Keith Ebert, Mikel Edwards, Paul Engelstad, Dave Forbes, Andy Frank, Greg Gerdes, Mark Guetzko, Doug Graeve, Bruce Gritters, Jeff Hansen, Todd Hauser, John Hayes, Brad Heemstra, Brian Hodgin, George Jessen, Steve Kaspar, Mike Kaufman, Randy Kibsgaard, Martin Kilheeney, Brian Laurenzo, Andy Lounsbury, Joe Maddy, Dwight Magee, Mike Mathiasmeier, Jane Martin, Seth McLaughlin, Karen Moeller-Thinnes, Catherine Morgan, Amy Myers-Engel, Bryan Myers, Randy Nelson, Bernie Newton, Bob Owens, Donna Praska, Mike Reuland, Dave Ricken, Steven Rogers, Gary Schmit, John Schneider, Jon Sealone, Joel Seaton, Kyle Smith, Mark Sorensen, Darren Spender, Mike Stensland, Bill Stotts, Eric Stroud, Dallas Sweet, John Thomas, Mark Thompson, Scott Thompson, Clark
Taylor, Doug Wall, Dan Ward, Randy Westbrook, Keith Whyte

The 1985 Bachelors graduates

The 1985 Masters graduate

Scott Higgins

The 1986 Bachelors graduates

Kevin Binder, Gary Boring, Tim Brown, Dan Cahill, Kevin Casali, Kevin Clemens, Gary Conkin, Lisa Cowger, Chip Crawford, Wadiah Daher, Dave Dimond, Dave Dixon, Chuck Ehrlich, Tom Ehrlich, Jon Ewing, Joe Fleming, Steve Freese, Steve Gromala, John Hendrickson, John Katschikowsky, Marc Kinseth, Harry Koenigs, Steve Leverington, Todd Liebbe, Steve Loneman, Steve Ludwig, Greg Marks, Jim May, Francis Modjeski, Dan Novak, Dave O’Dare, Joel Peterson, Dana Rand, Liz Reid-Benjamin, Drew Retz, Aaron Rosenbery, Tom Schmall, Kevin Seyko, Mike Sievers, Larry Sinnwell, Randy Smith, Wayne Snyder, Kevin Spooner, Craig Stearns, Mark Stritzel, Walter Smith, Kok-Heng Tan, Khing Teo, Roger Wendt, Andy Wyckoff

The 1987 Bachelors graduates

Tom Archer, Nader Antonio Bokaie, Arlan Bolstad, Steve Brandt, Bart Braughler, Hock Beng Chong, Jim Creath, Steve Daxon, Steve DeGroote, Geoff Eastburn, Steve Fangman, Mark Fowler, Joel Goehner, Andy Granner, Chris Harrison, Scott Hutchens, Don Jones, Craig Jorgensen, Scott Kelly, Chuck Kemp, Mary (Benike) Kisilewski, Russ Lewton, John Mahlstede, Kevin Markhardt, Mark McCarty, Steve Nelson, Scott Newbury, Randy Pauley, Andy Pope, Todd Propp, Scott Roecker, Dan Scholtes, Roger Smith, Mark Swenson, Bill Timmons, Jim Voss, Jim Walker, Jim Whitworth, Scott Wilming

The 1988 Bachelors graduates

Kurt Bailey, John Brennan, Kevin Brink, Todd Buchanan, Bob Cain, Greg Campen, Ken DeRose, Larry Dix, Don Drake, Ali El-Zein, Steve Ferguson, Ron Gaudreault, Bryan Geisler, Joe George, Tom Gill, Roger Grout, Bob Hamilton, Dave Harmelink, Matt Hindermann, David Howard, Scott Hudnutt, Bruce Hugo, Todd Jabaay, Michael Johnson, Brent Johnston, John Kavouris, Brian Klusendorf, Dave Lancaster, Curt Larson, Jeff Larson, Jeff Lehman, Dave Lehr, Mark Leuer, Ki Sing Lim, Eric Loomis, Ken Meyeraan, John Mozena, Dan Nepp, Scott Niebuhr, Al Perfkiwch, Jeff Peterson, Ramzi Qamar, Dave Ruggles, Brian Rumpf, Louis Sajovec, Mark Schraeder, Randy Sharp, Mike Smearman, Bob Sodders, Peter Stearney, Tim Tempel, Jeff Wagner

The 1988 Masters graduate

Mark Nelson

The 1989 Bachelors graduates

The 1989 Masters graduates

Yash Anantharaj, Mohd Bachh, Swagata Guhathakurta, Steve Kaspar, Carlos Moreno, Fred Rahbar, Mark Wagner

The 1990 Bachelors graduates

Mark Baughman, Kevin Behling, Bill Borgo, Gary Brill, Rich Busch, Jeff Carlson, Stacy Case, Robert Cramer,

**The 1990 Masters graduates**

Esam Badawi, Dave Harmelink, Mike Hubers, Chris Manning, Steve Njos, Muhkerjee Subhransu

**The 1991 Bachelors graduates**

Brian Brewer, Earl Collins, Brent Cooper, Judd Davidson, Bob Davis, Tom Davison, Darrin Dehmlow, Prashant Desai, Scott Draper, John Elliott, Mike Espeset, Paul Francois, Cory Freeborn, Pat Gannon, Pat Geary, Douglas Gebhardt, Mark Gilbreath, Mark Gunderson, Djojan Halim, Greg Hemmen, Joe Hentges, Tony Hibbs, Stewart Krummen, Brad Larson, Dan Lewis, Rhonda Lewis, Dave Lyon, Jeff Marks, Mark McDermott, Russ Meier, Kyle Mettin, Doug Moore, Mike Orgler, John Pelton, Doug Persinger, Bart Petersen, Brian Pietig, Steve Pigneri, Gene Postma, Leon Pua, Jay Rasmussen, Kurt Reser, Jeff Schwartz, Shawn Sleezer, Brad Stamp, Steve Swanson, Jason Warren, Tom Wengert, Ken Wydajewski, Joo Yeong

**The 1991 Masters graduates**

Tom DeVany, Guillermo Recarte, Chandrika Vardhan, Surya Pidaparti

**The 1992 Bachelors graduates**

**The 1992 Masters graduates**

Mohammad Asif, Naresh Pallegar, Yvan Rodriguez, Cem Sahin, Rifat Sonmez

**The 1993 Bachelors graduates**

Jerry Atcheson, Jason Auer, Anthony Beier, Eric Bertaud, Steve Clausen, Jason Crookshank, Heather Cunz, Ron Ensley, Eric Floyd, Kyle Greenley, Mike Harger, Kevin Harrington, Vance Hikiji, Greg Hosch, Heather (Cunz) Jensen, Tony Jones, Mark Kintner, Mark Kutcher, Wayne Mander, John Marburg, Rick Mascado, Chad Mussman, Scott Neubauer, Kelli Quinn, Kevin Reeg, Kent Ristau, Kirk Seely, Sean Terrell, Steve Troyer, Bill Vandenberg, Jeff VanEs, Kevin Voss

**The 1993 Masters graduates**

Kevin Behling, Mike Orgler, Salim Rajan, Gad Roitman, Virdi Gurvirinder

**The 1994 Bachelors graduates**

Chris Ahrenholtz, Shakil Ansari, Tim Becker, Steve Brindle, Brice Blank, David Burgus, Chad Bunner, Brad Churchill, Marcus Fedler, Bob Frohn, Matt Garwood, Mark Haines, Dan Hoefert, Darin Jacobs, Travis Lourens, Shane McFadden, Allen McIntosh, Steve Miller, Tony Miller, Trent Mostaert, Chris Paris, Lorri Paul, Nick Ruden, Jay Runestad, Dave Stanley, Steve Stecker, Scott Turczynski, Kent Vaske, Rondea Wine

**The 1994 Masters graduates**

Anselm Tirimanne, Sheng-Jer (Daniel) Wu

**The 1995 Bachelors graduates**

Ahmad Al-Khayyat, Kirk Alm, Aaron Benike, Andy Benkert, Kent Brcka, Dan Bruce, Dave Cantrell, Scott Carrigan, Paul Chandler, Stephanie Clausen, Jeff Colton, Jennifer Davisson, Matt DeJong, Steve Eikanger, Grant Elliott, Mike Ernst, Scott Feller, Dave Fisk, Dean Herbst, Brad Jones, Jason Jones, Chad Kehrt, Sharon King, Doug Larson, Amy McConeghey, Gary McDermitt, Brian McDermott, Bill McKee, Tom Melon, Ron Marolf, Greg Menke, Kevin Merryman, Brent Nagen, Dan Pittman, John Pladsen, Mark Sheets, Anthony Sherman, Jeff Smith, Andy Stapleton, Bill Van Rossum, Jason Walker, Scott Ward, Judson Wilmott, Melissa Winterstien, Ray Zeliadt
The 1995 Masters graduates
Sara (Birkland) Elliott, Justina Erviritina, Abie Ladson

The 1995 Doctoral graduate
Dave Harmelink

The 1996 Bachelors graduates

The 1996 Masters graduates
Rich Busch, Eric Carlson, Carter Dedolph, Lance Elliott, Beth Hartmann, Laura McCollough, Arcot Naresh, Brad Sonnenberg, Kelly Tilford, Robert Weddall

The 1996 Doctoral graduate
Rifat Sonmez

The 1997 Bachelors graduates
Ahmed Al-Hammadi, Serhan Celik, Brian Ellsworth, Chris Nelson, Steve Pigneri, Khim-Liong (Lawrence) Tan

The 1997 Masters graduates
Bryan Cawley, Todd Sirotiak

The 1997 Doctoral graduate
Faramarz (Fred) Rahbar

The 1998 Bachelors graduates

The 1998 Masters graduates
Ahmed Al-Hammadi, Serhan Celik, Brian Ellsworth, Chris Nelson, Steve Pigneri, Khim-Liong (Lawrence) Tan

The 1999 Bachelors graduates
The 1999 Masters graduates
Matt Fagen, Branden Stephan, Siew-Chin Yeong

The 2000 Bachelors graduates
Derik Aido, Jon Altes, Chad Bassman, Travis Benson, Jamie Beyer, Vanessa Brandt, Mike Callahan, Adam Cameron, Chris Dudding, Hudsadin Eamsherangkul, Todd Edsall, Judith Ehmer, Todd Fiemel, Melony Gibbs, Steve Golumbeck, Brian Hedgren, Ryan Heier, Matt Hillis, Robert Hostetler, Brandon Jones, Eric Kaufman, Nathan Kirstein, Jeff Knepper, Emily Kunz, Hoon-Hong Lee, Mark Leusink, Andy Lundy, Todd Majeres, John Maranowicz, Jeffrey Martin, Mike McCoy, Matt McKinney, Jon Merk, Ben Merta, Valarie (Bullard) Meyer, Katie Minter, Stephanie Morrison, Adam Papesh, Ryan Peterson, Pat Prediger, Matt Proctor, Dominic Punelli, Nate Purdy, Chad Rafoth, Matt Ralston, Lindsay Sauer, Ross Schaefer, Ron Stafford, Dave Swies, Bruce Timmons, Paul Tremmel, Brandon Valdez, Jay Wavering, Eric White, Jason Willis, Nick Wolf, Hannah Wooleedge

The 2000 Masters graduates
Karmyn Babcock, Judith Ehmer, D.H. Gabriel Lau, Chun Li, Iwan Pribadi, Hernando Quintero, Jeff Stewart

The 2001 Bachelors graduates
Heather Adams, Ben Bruns, Heather Burns, Chris Clausen, Scott DeYoung, Charles Dixin, Dave Flemmer, Chad Goddard, Ben Goldberg, Kasey Harken, Corey Harms, David Herrema, Travis Hodapp, Kevin Hodgson, Megan Hurd, Brian Irlbeck, Jaquelyn Junginger, Lee Kaiser, Nic Kaminski, Angela Kelly, Jeff Knutsen, Adam Kouri, Chris Krieg, Scott Kueter, Matthew Larson, Celeste Lewis, James Lutter, Andrew Manatt, Ryan May, Ibrahime M’Bbapanza, , Jason Miner, Rik Myhre, Steve Nelson, Brian Overbaugh, Dave Peterson, Ross Piper, Brian Pittman, Kyle Rahe, Jon Richardson, Nic Riesenberg, Meaghan Ryan, Rodney Sanders, Jeff Scandrett, Dale Schwager, Andy Smith, Loren Snyder, Shamus Stephens, Justin Strahan, Craig Streit, Barry Sullivan, Aaron Toney, Elizabeth Valdez, Jonathan VandeKrol, Matt Vander Pol, Matt Vanheiden, Krista Viet, Tim Vogel, Kevin Walker, Jason White, Rory Wiebel, Elizabeth Wood

The 2001 Masters graduates
Ozdemir Cetin, Tarek Elmisalami, Zhili Gao, Dongying (Judy) Jiang, Cynthia Patterson, Syuin-Chet Tee

The 2001 Doctoral graduate
Tarek Elmisalami

The 2002 Bachelors graduates

The 2002 Masters graduates
The 2003 Bachelors graduates
Jamie Beyer, Dong Chen, Aldona Jelinek, Melissa Leek, Jingxi (Cece) Li, Lifeng Li, Michael McArtor

The 2003 Bachelors graduates
Zachary Allen, D Bradley Barickman, Joseph Beumer, Nathan Blomme, Adam Boeckmann, Matthew Bosman, Tylor Bottorff, Philip Burgmeier, Brant Carr, Nicholas Carter, Ryan Cheeseman, Justin Clausen, Chad Coalbank, Edward Cox, Barry Determan, Isaac Drew, Eric Farley, Jodel Fesenmaier, Brian Fliehler, Nathan Franje, Tony Fucinoro, Cary Gapstur, Nathaniel Hagberg, James Hapke, Nathan Harty, Michelle Heikens, Derek Hemphill, Joshua Herman, Perry Hines, Sarah Homan, Benjamin Hott, Hilary Jensen, Quincy Jones, Brian Kacmarynski, Nicholas Kopp, Brad Kunz, Justin Lechtenberg, Ryan Llewellyn, Alan Manyin, Julie Martin, Jennifer McMinemee, Walter Nashes IV, Cheri Nordstrom, Nicholas Obbink, Ananto Prasetyo, Joseph Prosek, Tyler Raun, Phillip Ross, John Ryan, Joel Schimmer, Kyle Schott, Scott Shifflett, Korey Schroeder, Grant Sjostrom, Adam Smith, Eric Soenksen, Joshua
Staudt, Nathan Summers, Cody Tacke, Joseph Tripp-Rieks, Edna Vazquez, Matthew Van Loon, Ryan Weller, Michael Wolfe, Yew-Choong Wong, Christopher Wood, James Young, Jr

The 2003 Masters graduate

Mauricio Arbelaez, Stephen Frank, Jacob Thorius

The 2004 Bachelors graduates

The 2004 Masters graduates

Kiran Ankanahalli-Shivaram, Jin-Wook Chung, Manop (Lim) Kaewmoracharoen, Seonghoon Kim, Deepak Makarla, Tolga Meco, Mary Rukashaza, Diane Strawn

The 2004 Doctoral graduates

Augusto Canales, Zhili Gao

The 2005 Bachelors graduates

Mark Anthony, Brian Blank, Michael Boettcher, Scott Borgerding, Benjamin Bunge, Richard Corcoran, Brian Crow, Jamie Crubaugh, Jeffrey Elkins, Justin Fisher, Gareth Fleischer, Andrew Grubb, Steven Halverson, Julie Halvorson, Joseph Harris, Matthew Hornibrook, Eric Jestrab, Minas Kavallieros, Brian Klemme, Nicholas Lauters, Kerry Megraw, Tyler Meyerholz, Kent Mickelson, Joshua Miltenberger, Tyrel Murray, Justin Olson, Cliff Plymesser, Jeffrey Quinn, Michael Richardson, Bryan Sandvig, Clifford Schafer, Kirt Schmidt, Dominique Selgrade, Joshua Thrap, William Treasure, Brett Walker, Chad White, Gary Wickering, Luke Wilgenbusch, David Wilson, Crystal Wojtysiak

The 2005 Masters graduates

James Nelson, Hariharan Pattabhi Seetharaman, Cliff Plymesser, Nolan Raadt, Edna Vazquez, Nicholas Williams, Zheng Zhong

The 2006 Bachelors graduates

Stephen Ahlers, Anthony Alleman, Robert Amundson, Nicholas Andera, Jerad Andersen, Nicholas Andersen, Nicholas Bement, Jason Bersch, Anastasia Bitker, Jason Brekken, Russell Bollig, James Bowers, Josh Braby, Aaron Brase, Carl Brush, Aaron Bunge, Joseph Butler, Scott Cornelius, Michael Cramer, Kenneth Dittus, Jonathan Doll, Case Doorn, Ryan Drapeaux, Philip Emanuel, Anthony Erickson, Ryan Ferris, Curt Gillum, Glen Gleason, Ryan Haaland, Ryan Hackenmiller, Richard Harris, Scott Hildebrand, Chad Hotovec, Jake Humphreys, Eric Johnson, Derek Juhl, Jamie Knox, Jacob Kress, James Kurth, Benjamin Lehan, Jonathan Lewton, Kevin Lind, Tyler Manker, James Matzinger, Patrick McClain, Ryan McGuire, Jeffrey McKee, Peter Mercuris, Nathan Mittag, Jeffrey Moellers, Craig Montgomery, Adam Nelson, Lincoln Nichols, Dustin Nordell, Matthew Olberding, Nels Overgaard, David Parr, Zachary Peterson, Joshua Pick, Nathan Pilcher, David Rahe, Tyler Ramaekers, Eric Rasmussen, Gina Riesberg, Nicholas Rivera, Chad Schmidt, Bradley Schoch, Daniel Seiler, Jonathan Shepherd, Aaron Smith, Derek Snead, Andrew Stoulil, Luke Strahan, Brett Templeton, Nicholas Tjaden, Justin VanCoughnett, Andrew Wagner, Dustin Waters, Colin Waits, Cole Weaver, Arlo Wieczorek, Michael Woolley

The 2006 Masters graduates

Nathaniel Hagberg, Eric Jestrab, James Tometich

The 2006 PhD graduate

Dong Chen

The 2007 Bachelors graduates

Matthew Barchman, Brian Boeckholder, Nicholas Caratelli, Lucas Clausen, Adam Clemons, Brad Corkrean, Adam Dillavou, Adam Douglas, Lee Ebel, Jason Eveland, Christopher Frederiksen, David Frischmeyer, Daniel Frohardt, Joshua Gaube, Wayne Gordon, Rondal Hale,
The 2007 Masters graduates

The 2008 Bachelors graduates

The 2008 Masters graduates

Mayur Bisani, Cole Landau, Darren McWhirt

The 2008 Bachelors graduates

The 2009 Bachelors graduates

Mohammed Al Qady, Asish Seeboo

The 2009 Masters graduates

Aaron Brncich, Cory McDermott

The 2009 PhD graduates

Daniel Enz, Manop Kaewmoracharoen, Tarek Mahlfouz

The 2010 Bachelors graduates

Islam El-Adaway, Todd Sirotiak

The 2010 Masters graduates

Douglas Allen, Marc Basara, Claire Bassett, Michael Berg, David Boulanger, Clark Bowden, Peter Cade, Anna Claussen, Camron Collier, Ryan Collins, Scott Cutler, Peter Cutler, Luke Daugherty, Austin Davis, Alicia Davison, Marko Dostanic, Laura Ellis, Jake Fuller, Ted Gerber, Nicholas Goedken, Karl Hafencher, David Hanks, Trevor Hanus, Benjamin Harriman, Austin Hennessey, Jimmy Hilton, Matthew Jahnke, Michael Janecek, Matthew Karns, Keith Kimsey, Jason Klein, Jonathan Klemm, Chad Lane, Brian Leitch, Matthew Lewton, Andrew Lowthorpe, Jay Mathes, Mitchell McCulloch, Ryan McGregor, Anthony Meinke, Brad Meyer, Brandon Montgomery, Jacob Moss, Michael Moye-Rowley, Patrick Mulloy, Boyd Netley, Arren Nguyen, Phillip O’Loughlin, Rowdy O’Grady, Nick Olson, Bradley Paulsen, Michael Pokorney, Rachel Potthoff, Blake Pratt, Ryan Quid, Patricio Quiroga Cruz, Ewatt Roberts, Nicholas Roberts, Christopher Rosso, Matthew Schultz, Michael Schupbach, Johnathan Seibert, Ryan Shabino, Ryan Sievers, Branton Smith, Nathan Steffes, Nathaniel Stevenson, Colton Taylor,
Taylor Theulen, Andrew Trible, Brian Van Utrecht, Matt Warner, Steve Wiitanen, Tanner Wilks, Nathan Wolfe, Nicholas Wolff, Matthew Zaletel

The 2010 Masters graduates

Ali Satar Ali, Larry Cormicle, Kevin McLain, John Owens, Jainarine Ramkumar, Elizabeth Thoma, Tong Wang, Aaron Zutz

The 2011 Bachelors graduates

The 2011 Masters graduates

Jonathan (Jack) Creviston, Bradley Kruse, Sayanti Mukhopadhyay, Jose Perez, Brad Perkins

The 2012 Bachelors graduates

The 2012 Masters graduates

Fangyu (Denise) Guo, Jay Mathes, Angel Morandeira, Miguel A. Guerra-Moscoso, Jeanna Schierholz, Jacob Shaw, Nicola West

The 2012 PhD graduates

Nurhidayah (Hida) Azmy, Ghada Gad

The 2013 Bachelors graduates

The 2013 Masters graduates
Elika Bahrevar, Francis Dayamba, John Mallen, Jorge Rueda Benavides, Nicole Schmidt

The 2014 Bachelors graduates

The 2014 Masters graduates
Rinita Anand, Kate Hunter, Ed O’Connor, Jianing Zhang, Ziliang Zhang (Leo)

The 2014 PhD graduates
Asregedew Woldesenbet

The 2015 Bachelors graduates
Abhimanu, Emily Craigie, Brendon Gardner, Deepanshi Jain, Sunny Mahajan, Ayush Sharma, Aditya Vinay

The 2015 Masters graduates
Kevin McLain, Maria (Catalina) Miller, Jianhua Yu

The 2015 PhD graduates

The 2016 Bachelors graduates
Phil Barutha, Rande Patterson

The 2016 Masters graduates
Firas Al Shalabi, Beth Hartmann, Jorge Rueda Stevenson, Kyle Streicher, Jared Stumme, Chad Tenold, Miles, Turner-Gentsch, Richard Van, Peter Vonqualen, Xinyuan Zhao

The 2016 PhD graduates
