Troy began his career with Mortenson in 1997 as a Field Engineer, and grew his career through the “typical” Project Management path. He has built a reputation for developing trusting relationships with our customers and partners, providing strong mentorship to his teams, and developing an aptitude for project operations. He has resided in the Minneapolis area for most of the last 20 years, with a short break in Iowa where he worked on the Coralville Marriott Hotel and Conference Center. Troy’s experience covers most of the market sectors Mortenson specializes in, including healthcare, higher education, hospitality, development, corporate, public, cultural, and sports. His most memorable leadership opportunity was as Senior Project Manager on the Target Field Ballpark, the home of the MN Twins.

Currently as Director of Operations, Troy is part of the leadership team that is responsible for managing the Minneapolis Group, with revenue in 2015 exceeding $900M. His focus is on team members, and general group operations (safety, quality, scheduling).

His presentation will be on Authentic Leadership. The highlights include understanding yourself, understanding your evolving role as a leader, and the importance of empowering other people to lead.
