Social Science and Humanities Electives For Civil Engineering

2018-2019 Catalog

Requirements

Students in the civil engineering (CE) program must take at least 12 credits social sciences and humanities (SSH) electives satisfying the following requirements:

- At least 3 credits must come from the <u>University's list of International Perspectives (IP)</u> courses.
- At least 3 credits must come from the University's list of U.S. Diversity (USD) courses.
- The remaining courses must come from the IP courses, USD courses, or the other approved courses below.
- At least 6 credits must be at the 200 level or above.
- The total must be at least 12 credits even if either the IP or USD requirement is waived.
- All courses on the University's US Diversity and International Perspectives list are approved CE SSH Electives.

In 2016 the CE Curriculum Committee approved the following: "Foreign Language: Accept all courses in Arabic, Chinese, French, German, Greek, Latin, Russian, Spanish, except grammar and composition in the student's native language(s)".

Rationale

The SSH requirement aims to give CE students an opportunity to broaden their perspectives beyond what the math, science, and engineering courses can provide. For example, ABET, the organization that accredits engineering programs, requires that students have "the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context". The CE program believes that students with such a broad education will be better engineers.

Other approved courses

It is the student's responsibility to check the 2018-2019 Catalog for prerequisites.

Course	Course title	CR	Cross list
A M D 356	History of Twentieth Century Fashion	3	
Acct 215	Legal Environment of Business	3
